SUPPLEMENTARY INFORMATION:

Type of Review: Extension—No Change.

Collection Title: Equal Employment Opportunity Local Union Report EEO-3.

Form Number: EEOC Form 274.

Frequency of Report: Biennial.

Type of Respondent: Referral unions with 100 or more members.

Standard Industrial Classification (SIC) Code: 863.

Description of Affected Public: Labor unions and similar labor organizations.

Responses: 3,000

Reporting Hours: 4,500

Federal Cost: \$43,500.00.

Number of Forms: 1

Abstract: Section 709(c) of Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-8(c), requires employers to make and keep records relevant to a determination of whether unlawful employment practices have been or are being committed and to make reports therefrom as required by the Commission. Pursuant to 29 C.F.R. § 1602.22, referral unions with 100 or more members are required to submit EEO-3 reports biennially. The EEO-3 data collection program has existed since 1967. The individual reports are confidential.

EEO-3 data are used by the Commission to investigate charges of employment discrimination against local referral unions. Pursuant to Section 709(d) of Title VII, EEO-3 data are shared with 89 state and local fair employment practices agencies, and with other federal agencies.

Burden Statement: The respondent burden for this collection is minimal. The estimated number of respondents included in the EEO-3 survey is 3,000 local unions. The estimated number of responses per respondent is one EEO-3 report, taking an estimated one and one half hours to complete. The total number of burden hours therefore is estimated to be 4,500.

This is an average burden estimate and is based on a long history (since 1985) of identical reporting experience. The burden is dependent on the size of the local union and on the number of referrals made by the union during the reporting period. Smaller unions may well take under an hour to complete the report. Over the years, the Commission has reduced the reporting and record keeping burden by eliminating all local unions with fewer than 100 members, by requiring record keeping for a two month period only, by changing the data collection instrument, and by changing the frequency of the data collection from an annual to a biennial basis. Further reductions, such as filing by diskette or magnetic tape, have been less successful as local unions appear less likely to have computerized record keeping and reporting capabilities.
