SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40CFR Part 1500); and the Natural Resources Conservation Service Regulations (7CFR Part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Perry Ridge Shoreline Protection (PCS-26), Calcasieu Parish, Louisiana.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these

findings, Donald W. Gohmert, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The purpose of the project is to ensure the stability of 1,203 acres of interior marsh by providing bank protection of the critical area located along the north GIWW bankline and preventing additional breaching. The planned works of improvement include the placement of 12,000 linear feet of rock dike on critical areas within a 4.25 mile reach between Perry Ridge and the Vinton Drainage Canal.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various federal, state, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Bennett C. Landreneau, Assistant State Conservationist/Water Resources, Natural Resources Conservation Service, 3737 Government Street, Alexandria, Louisiana, 71302, telephone (318) 473-7756.

No administrative action on implementation of the proposal will be
