Submission for OMB Review; Comment Request

Title: Family Preservation and Family Support (FP/FS) Service Implementation Study—Community Level Data Collection.

OMB No.: New request.

Description: The Omnibus Budget Reconciliation Act of 1993 (OBRA 93) established title IV-B, subpart 2 of the Social Security Act (42 U.S.C. 62-628)

to provide funds to states for the development of family preservation and family support programs and services. Subpart 2, Section 435 of OBRA 93 requires the Secretary of HHS to evaluate the effectiveness of programs carried out under the legislation. This data collection is being conducted to help meet this requirement and to implement reauthorization of the legislation in 1999.

Data collection will ask local child welfare agencies and other community service providers and agencies involved in planning and implementation of title IV-B subpart 2 to provide information on the programs and services funded, populations targeted, reform efforts initiated, and the coordination of new or

expanded programs with the child welfare system and other existing providers. Both qualitative and quantitative analyses will be completed to highlight the process states employ to implement the legislation, coordinate with other funding sources, develop new programs, and improve service delivery systems. The analysis of this information will be used to provide feedback to ACF necessary to determine the need for future policy guidance and refine the nature and scope of technical assistance. The information will also provide direct feedback to states and communities concerning successful implementation strategies.

Respondents: State, Local or Tribal Govt., and Not-for-profit institutions.

SUPPLEMENTARY INFORMATION: By contract with NAS/IOM, FDA supports the preparation of the Food Chemicals Codex, a compendium of specification monographs for substances used as food ingredients. Before any specifications are included in a Food Chemicals Codex publication, public announcement is made in the Federal Register. All interested parties are invited to comment and to make suggestions for consideration. Suggestions should be accompanied by supporting data or other documentation to facilitate and expedite review by the committee.

In the Federal Register of May 31, 1995 (60 FR 28413), FDA last announced that the committee was considering an additional monograph and a number of monograph revisions for inclusion in the fourth edition of the Food Chemicals Codex. The fourth edition of the Food Chemicals Codex was released by the National Academy Press (NAP) in March 1996. It is now available for sale from NAP (1-800-624-6242; 202-334-3313; FAX 202-334-2451; Internet <http://www.nap.edu>) 2101 Constitution Ave. NW., Lockbox 285, Washington, DC 20055.

FDA now gives notice that the committee is soliciting comments and information on additional proposed new monographs and proposed changes to certain current monographs. These new monographs and changes will be published in the first supplement to the fourth edition of the Food Chemicals Codex, which is scheduled for publication in late summer, 1997. Copies of the proposed new monographs and revisions to current monographs may be obtained upon written request from NAS at the address listed above or through the internet at <http://www2.nas.edu/codex>.

FDA emphasizes, however, that it will not consider adopting and incorporating any of the committee's new monographs or monograph revisions into FDA regulations without ample opportunity for public comment. If FDA decides to propose the adoption of new monographs and changes that have received final approval of the committee, it will announce its intention and provide an opportunity for public comment in the Federal Register.
