Questar states that consistent with its continued effort to meet customer needs and expectations, and in response to customer requests for increased flexibility in providing ISS service, it is seeking Commission approval of proposed tariff revisions that will (1) eliminate the requirement that there be uncommitted Clay Basin firm storage capacity in order to offer ISS service, (2) permit ISS service for any period of time and (3) require the withdrawal of ISS working gas within 30 days of notice that capacity is required to meet the firm requirements of Rate Schedule FSS shippers. Questar has requested waiver of 18 CFR 154.207 so that the tendered tariff sheets may become effective as proposed.

Questar states further that a copy of this filing has been served upon its customers, the Public Service Commission of Utah and the Wyoming Public Service Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 385.211 and 385.214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). filing, to become effective January 1, 1997.

South Georgia states that the purpose of this filing is to comply with Commission Order Nos. 582 and 582-A requiring, inter alia, that rates be stated on a thermal basis. South Georgia proposes to state all its rates on a Dekatherm (Dth) basis effective January 1, 1997, since the Commission has approved Dth to be the standard unit for nominations, allocations and invoicing. Accordingly South Georgia has changed all references in its Tariff from MMBtu to Dth in addition to stating its reservation charge and calculation for firm service on a Dth basis. These changes do not impact firm shippers' contract quantities (in Mcf) and do not substantively alter the charges shippers pay for service. South Georgia has also made other clarifications to its tariff required by the orders.

South Georgia submits that the Commission should grant it all waivers necessary to place these provisions into effect January 1, 1997.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedures (18 CFR Sections 385.211 and 385.214). All such motions and protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
