

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the National Science Foundation (NSF) will publish periodic summaries of proposed projects. Such a notice was published at Federal Register 51723, dated; October 3, 1996. No comments were received.

The materials are now being sent to OMB for Review. Send any written comments to Desk Officer, OMB, 3145-0020, OIRA, Office of management and Budget, Washington, DC 20503. Comments should be received by February 4, 1996.

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: The Survey of Doctorate Recipients (SDR) has been conducted biennially since 1973. For the 1997 cycle, a sample of individuals under the age of 76 who have earned doctoral degrees in science and engineering from U.S. institutions will be surveyed. The purpose of the study is to provide national estimates describing the relationship between education and employment for Ph.D. recipients in science and engineering. The study is one of three components of the Scientists and Engineers Statistical Data System (SESTAT), formerly called the Scientific and Technical Personnel Data System (STPDS).

The National Science Foundation Act of 1950, as subsequently amended, includes a statutory charge to “* * * provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources, and to provide a source of information for policy formulation by other agencies of the Federal Government.” The Survey of Doctorate Recipients is designed to comply with these mandates by providing information on the supply and utilization of doctorate level scientists and engineers. Collected data will be used to produce estimates of the characteristics of these individuals. They will also provide necessary input into the SESTAT labor force model,

which produces national estimates of the size and characteristics of the country's science and engineering population. The Foundation uses this information to prepare congressionally mandated reports such as Women and Minorities in Science and Engineering and Science and Engineering Indicators. A public release file of collected data, designed to protect respondent confidentiality, is expected to be made available to researchers on CD-ROM and on the World Wide Web.

The survey sample design includes oversampling of recent Ph.D. recipients and minority recipients and varying sampling rates to represent specific fields of science and engineering. A total of approximately 58,000 individuals is expected to be sampled for the survey. Sample members will be requested to complete a 30 minute interview conducted by computer-assisted telephone interviewing (CATI) or mail. An unweighted response rate of 85 percent is anticipated. The survey will be collected in conformance with the Privacy Act of 1974. Each sample member's participation will be entirely voluntary. NSF will insure that all information collected will be kept strictly confidential and will be used only for research or statistical purposes, analyzing data, and preparing scientific reports and articles.

Dated: December 23, 1996.

Herman G. Fleming,

NSF Clearance Officer.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements: Notice of Pending Submittal to the Office of Management and Budget (OMB) Review

AGENCY: U. S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: Nuclear Material Events Database (NMED).

2. Current OMB approval number: 3150-0178.

3. How often the collection is required: Agreement States are requested to report events to NRC electronically or by hard copy within one month of notification from an Agreement State licensee that an incident or event involving the industrial, commercial and/or academic use of radioactive byproduct materials, or the use of radioactive materials for medical diagnosis, therapy, or research has occurred. In addition, Agreement States are requested to report events that may pose a significant health and safety hazard to the NRC Headquarters Operations Officer within the next working day of notification by an Agreement State licensee.

4. Who is required or asked to report: Current Agreement States and any State receiving Agreement State status in the future.

5. The number of annual respondents: 29.

6. The number of hours needed annually to complete the requirement or request: 705 hours (an average of approximately one hour per response) for all existing Agreement States reporting; any new Agreement State would add approximately 25 reports per year or 25 burden hours.

7. Abstract: NRC regulations require NRC licensees to report incidents and events involving the use of radioactive byproduct material, and source material, such as those involving a radiation overexposure, a leaking or contaminated sealed source, release of excessive contamination of radioactive material, lost or stolen radioactive material, equipment failures, and abandoned well logging sources. Medical misadministrations are required to be reported in accordance with 10 CFR 35.33. Agreement State licensees are also required to report these events and medical misadministrations to their individual Agreement State regulatory authorities under compatible Agreement State regulations. NRC is requesting that the Agreement States voluntarily submit summary information on events and medical misadministrations involving the use of nuclear materials regulated pursuant to the Atomic Energy Act, in a uniform electronic format, for assessment and identification of any facility/site specific or generic safety concerns that could have the potential to impact public health and safety; and to evaluate actions necessary to prevent their occurrence at the same or other facilities.

Submit, by February 25, 1997, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington, DC. Members of the public who are in the Washington, DC, area can access this document via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library) NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov(Telnet). If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608. Additional assistance in locating the document is available from the NRC Public Document Room, nationally at 1-800-397-4209, or within the Washington, DC, area at 202-634-3273.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo Shelton, U.S. Nuclear Regulatory Commission, T-6 F33, Washington, DC. 20555-0001, or by telephone at (301) 415-7233, or by Internet electronic mail at BJS1@NRC.GOV.

Dated at Rockville, Maryland, this 20th day of December, 1996.

For the Nuclear Regulatory Commission.
Gerald F. Cranford,
Designated Senior Official for Information Resources Management.

BILLING CODE 7590-01-P

Documents Containing Reporting or Recordkeeping Requirements: Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: Applicant Self-Assessment, NRC Form 563.

2. Current OMB approval number: 3150-0177.

3. How often the collection is required: The Applicant Self-Assessment will be requested from basically qualified external applicants applying for engineering and scientific positions at the time their initial application is received in the NRC's Office of Personnel.

4. Who will be required or asked to report: Basically qualified external applicants applying for engineering and scientific positions with the NRC.

5. The number of annual respondents: 1,500.

6. The number of hours needed annually to complete the requirement or request: 125 hours (five minutes per response).

7. Abstract: The Applicant Self-Assessment will be used to collect uniform information from external applicants as to which technical specialties they possess that are unique to the needs of the NRC. This information will be reviewed by Office of Personnel staff and used to match applicants' technical specialties with those required by selecting officials when an engineering or scientific vacancy position is to be filled.

Submit, by February 25, 1997, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street NW, (lower level), Washington, DC. Members of the public who are in the Washington, DC, area can access this document via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document

Library). Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of the notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions may be directed to the NRC Clearance Officer, Brenda Jo Shelton, U.S. Nuclear Regulatory Commission, T-6 F33, Washington, DC, 20555-0001, or by telephone at (301) 415-7233, or by Internet electronic mail at BJS1@NRC.GOV.

Dated at Rockville, Maryland, this 20th day of December, 1996.

BILLING CODE 7590-01-P

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission, new, revision, or extension: Revision.

2. The title of the information collection: 10 CFR 35.32 and 35.33, "Quality Management Program and Misadministrations".

3. The form number if applicable: Not Applicable.

4. How often the collection is required:

For quality management program (QMP):

Reporting: One time submittal of a quality management program (QMP) for each existing and new licensee, when the QMP is modified, or when new modalities (uses) are added to an existing license.
