

TABLE 2. — REGISTRANTS REQUESTING AMENDMENTS TO DELETE USES IN CERTAIN PESTICIDE REGISTRATIONS—
Continued

Com- pany No.	Company Name and Address
011715	Speer Products, P.O. Box 18993, Memphis, TN 38181.
019713	Drexel Chemical Co., 1700 Channel Ave., P.O. Box 13327. Memphis, TN 38113.
028293	Unicorn Laboratories, 13535 Feather Sound Drive, Suite 400, Clearwater, FL 34622.
034704	Platte Chemical Co., 419 18th Street, P.O. Box 667, Greeley, CO 80632.
067760	Cheminova, Inc., Oak Hill Park, 1700 Route 23, Suite 210, Wayne, NJ 07470.

III. Existing Stocks Provisions

The Agency has authorized registrants to sell or distribute product under the previously approved labeling for a period of 18 months after approval of the revision, unless other restrictions have been imposed, as in special review actions.

List of Subjects

Environmental protection, Pesticides and pests, Product registrations.

Dated: February 1, 1996.

Frank Sanders,

Director, Program Management and Support Division, Office of Pesticide Programs.

BILLING CODE 6560-50-F

[PF641; FRL-4992-8]

Aspergillus Flavus Isolate AF36; Notice of Filing of Pesticide Petition

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received from the Interregional Research Project No. 4 (IR-4) a petition (PP 5E4575) to establish an exemption from the requirement of a temporary tolerance for the microbial pesticide *Aspergillus flavus* AF36, non-aflatoxin producing strain, in or on all raw agricultural commodities. EPA considers the petition to be of regional and national significance.

DATES: Comments must be submitted March 29, 1996.

ADDRESSES: By mail, submit written comments to: Public Response and Program Resources Branch, Field operations Division (7506C), office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA. Information submitted and any comment(s) concerning this notice may

be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment(s) that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice to the submitter. Information on the proposed test and any written comments will be available for public inspection in Rm. 1132 at the Virginia address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [PF641]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this proposed rule may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found below in of this document.

FOR FURTHER INFORMATION CONTACT: By mail: Shanaz Bacchus, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: 5th Floor, CS #1, 2805 Jefferson Davis Hwy., Arlington, VA 22202, (703)-308-8097; e-mail: hollis.linda@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: This notice announces that EPA has received from the IR-4, New Jersey Agricultural Experiment Station, P.O. Box 231, New Brunswick, NJ 08903-0231, a notice of

filing under section 408 of the Federal Food Drug, and Cosmetic Act (21 U.S.C. 346a) for pesticide petition (PP) 5E4575 to amend 40 CFR part 180 to establish an exemption from the requirement of a temporary tolerance for the microbial pesticide *Aspergillus flavus* isolate AF36 in or on all raw agricultural commodities.

This petition (PP 5E4575) is associated with an application for an Experimental Use Permit (69224-EUP-R). The application was filed on behalf of the Agricultural Research Service, U. S. Department of Agriculture, 1100 Robert E. Lee Boulevard, P. O. Box 19687, New Orleans, LA. 70179-0687. The use of the atoxigenic strain of *Aspergillus flavus* AF36 in the proposed manner is intended to prevent aflatoxin contamination of cottonseed by competitively excluding aflatoxin producing strains from infecting treated crop. The microbial pesticide is to be applied at 10 pounds per acre to 1,120 acres of commercial cotton fields in Yuma County, Arizona, over a 3 year period. There will be one application per crop. Details of the EUP program are available in the Federal Register notice of 69224-EUP-R.

A record has been established for this rulemaking under docket number [PF641] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Room 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:
opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this rulemaking, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official rulemaking record which will also include all comments submitted directly in writing. The official rulemaking record is the paper record maintained at the address in ADDRESSES at the beginning of this document.

List of Subjects

Environmental protection, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated /February 16, 1996.

Janet L. Andersen,

Acting Director, Biopesticides and Pollution Prevention Division, Office of Pesticide Programs.

BILLING CODE 6560-50-F

[OPP-180996; FRL 5350-3]

Carbofuran; Receipt of Application for Emergency Exemption, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received a specific exemption request from the Texas Department of Agriculture (hereafter referred to as the "Applicant") to use the pesticide flowable Carbofuran (Furadan 4F Insecticide/Nematicide) (EPA Reg. No. 279-2876) to treat up to 1.8 million acres of cotton to control cotton aphids. The Applicant proposes the use of a chemical which has been the subject of a Special Review within EPA's Office of Pesticide Programs, and the proposed use could pose a risk similar to the risk assessed by EPA under the Special Review of granular carbofuran. Therefore, in accordance with 40 CFR 166.24, EPA is soliciting public comment before making the decision whether or not to grant the exemption.

DATES: Comments must be received on or before March 14, 1996.

ADDRESSES: Three copies of written comments, bearing the identification notation "OPP-180996," should be submitted by mail to: Public Response and Program Resource Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPP-180996]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found below in this document.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be provided by the submitter for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments filed pursuant to this notice will be available for public inspection in Rm. 1132, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, from 8 a.m. to 4:30 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: By mail: David Deegan, Registration Division (7505W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Floor 6, Crystal Station #1, 2800 Jefferson Davis Highway, Arlington, VA, (703) 308-8327; e-mail: deegan.dave@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Pursuant to Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), the Administrator may, at her discretion, exempt a state agency from any registration provision of FIFRA if she determines that emergency

conditions exist which require such exemption. The Applicant has requested the Administrator to issue a specific exemption for the use of carbofuran on cotton to control aphids. Information in accordance with 40 CFR part 166 was submitted as part of this request.

The Applicant asserts that the state of Texas is likely to experience a non-routine infestation of aphids during the 1996 cotton growing season, which would result in significant economic losses without the use of flowable carbofuran. The applicant also details a use program designed to minimize risks to pesticide handlers and applicators, non-target organisms (both Federally listed endangered species, and non-listed species), and to reduce the possibility of drift and runoff. This use of carbofuran was granted in 1995 to Texas, Mississippi, Oklahoma, and California, and included measures to minimize risk to farm workers and non-target organisms, and requirements for additional monitoring for effects on wildlife.

The applicant proposes to make one application of flowable carbofuran on young cotton (defined as six true leaves to bloom) at the rate of 0.125 lb. active ingredient [(a.i.)] (4 fluid oz.) in a minimum of 2 gallons of finished spray per acre by air, or 10 gallons of finished spray per acre by ground application; and to make no more than two applications on older cotton (bloom to finish) at the rate of 0.25 lb. a.i. (8 fluid oz.) in a minimum of 2 gallons of finished spray per acre by air, or 10 gallons of finished spray per acre by ground application. The total maximum proposed use during the 1996 growing season (March 1, 1996 until September 30, 1996) in Texas would be 0.625 lb. a.i. (20 fluid oz.) per acre. The applicant proposes that the maximum acreage which could be treated under the requested exemption would be 1.8 million acres. If all acres were treated at the maximum proposed rates, then 1,125,000 lbs. a.i. (281,250 gallons Furadan 4F Insecticide/Nematicide) would be used.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 require publication of a notice of receipt of an application for a specific exemption proposing use of a chemical (i.e., an active ingredient) which has been the subject of a Special Review within EPA's Office of Pesticide Programs, and the proposed use could pose a risk similar to the risk assessed by EPA under the previous Special Review. Such notice provides for opportunity for public comment on the application.
