**SUPPLEMENTARY INFORMATION:**

*Title:* Certification of Authority.

*OMB Control Number:* 0572-0074.

*Type of Request:* Reinstatement, with change, of a previously approved information collection for which approval has expired.

*Abstract:* The Rural Utilities Service (RUS) manages loan programs in accordance with the Rural Electrification Act of 1936 (7 U.S.C. 901 *et seq.*), as amended. A major factor in managing loan programs is controlling the advance of funds. One reason to control funds is so that the actual borrowers get their money. The use of RUS Form 675 allows this control to be achieved by providing a list of authorized signatures against which signatures requesting funds are compared. RUS Form 675 provides an effective control against the unauthorized release of funds by providing a list of authorized signatures. OMB Circular A-123, Management Accountability and Control, states that information should be maintained on a current basis and that cash should be protected from unauthorized use. This form allows borrowers to keep RUS up-to-date of any changes in signature authority and controls the release of funds only to authorized borrower representatives.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 0.1 of an hour per response.

*Respondents:* Small business or organization.

*Estimated Number of Respondents:* 490

*Estimated Number of Responses per Respondent:* 1.

*Estimated Total Annual Burden on Respondents:* 49.

Copies of this information collection, and related form and instructions, can be obtained from Dawn Wolfgang, Program Support Staff, at (202) 720-0812.

Comments are invited on: (a) Whether this proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the

use of automated collection techniques or other forms of information technology. Comments may be sent to: F. Lamont Heppe, Jr., Deputy Director, Program Support Staff, Rural Utilities Service, U.S. Department of Agriculture, 14th & Independence Ave., SW., AG Box 1522, Washington, DC 20250-1522. FAX: (202) 720-4120.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
