[NAFTA-00701]

**Matsushita Electric Corporation of
America Matsushita Logistics
Company; Fort Worth, Texas, Notice of
Revised Determination on
Reconsideration**

On January 22, 1996, the Department issued a negative determination for workers of Matsushita Electric Corporation of America, Matsushita Logistics Company, Ft. Worth, Texas, to apply for NAFTA-Transitional Adjustment Assistance (NAFTA-TAA). The notice was published in the Federal Register on February 6, 1996 (FR 61 FR 4487).

By letter of February 6, 1996, the petitioners requested administrative reconsideration of the Department's findings.

Findings on reconsideration show that the employees of the subject firm perform sales and warehousing services of electronic products for the parent company, Matsushita Electric Corporation of America. Investigations show sales and employment at the Fort Worth location declined during the time period of the investigation. Workers at the Fort Worth location may be certified only if their separation was caused importantly by a reduced demand for their services from a parent firm, a firm otherwise related to the subject firm by ownership, or a firm related by control. A NAFTA certification was issued for a producing facility of the parent company that imports electronic products from Mexico.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of

articles like or directly competitive with electronic products contributed importantly to the declines in sales or production and to the total or partial separation of workers at Matsushita Electric Corporation of America, Matsushita Logistics Company, Fort Worth, Texas. In accordance with the provisions of the Act, I make the following certification:

"All workers of Matsushita Electric Corporation of America, Matsushita Logistics Company, Fort Worth, Texas who became totally or partially separated from employment on or after November 21, 1994 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974."

Signed at Washington, D.C., this 23rd day of February 1996.

Russell T. Kile,

Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: Office of Records Administration, National Archives and Records Administration.

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 U.S.C. 3303a(a).

DATES: Request for copies must be received in writing on or before April 22, 1996. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

ADDRESSES: Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, College Park, MD 20740. Requesters must cite the control number assigned

to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.
