

1969; and the Coast Guard's NEPA Implementing Procedures, to evaluate the potential environmental impacts of the proposed installation of incinerators on certain classes of Coast Guard cutters. The EA concluded in to 'finding of no significant impact (FONSI), that mean the concentrations of pollutants generated by the proposed installation of incinerators on board certain classes of Coast Guard cutters are low enough that the physical, biological, and atmospheric effects on the marine environment are insignificant for all areas of operation. Consequently, an Environmental Impact Statement was not required.

As required by NEPA, the EA and FONSI were made available to concerned government agencies and a 'notice of availability' appeared in the Federal Register of 26 November 1996 [61 FR 60137] to invite peoples' comment. No adverse comments were received by the end of the 30-days comment period.

The EA and FONSI are now final. Concerned agencies and the public may request copies of the EA and FONSI from the address above under **ADDRESSES**, and by contacting Mr. Hari Bindal, at (410) 762-6732.
