Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Wilma Johnson, CDC Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

1. 1998 Alternative School Youth Risk Behavior Survey

(0920-0258)—Extension—The purpose of this request is to extend OMB clearance to conduct an ongoing survey among secondary school students of priority health risk behaviors related to the major preventable causes of mortality, morbidity, and social problems among both youth and adults in the U.S. The OMB clearance currently in effect (0920-0258, expiration 10/97) covers conduct of the national school-based Youth Risk Behavior Survey (YRBS)

biennially among students attending regular public, private, and Catholic schools in grades 9–12. This request is to extend OMB clearance to conduct a YRBS in 1998 among a nationally representative sample of students in alternative schools, which have been excluded from the national school-based YRBS in the past. Alternative schools, which represent about 5% of U.S. high schools, serve students primarily who

are at risk of not progressing in regular high schools and, as a result, not graduating, as well as students who have already gotten into disciplinary trouble, usually related to drug use or violence. Data on the health risk behaviors of adolescents is the focus of at least 26 national health objectives in *Healthy People 2000: Midcourse Review and 1995 Revisions*. This survey will provide data to help measure these

objectives among alternative school students. No other national source of data exists for this population. The data also will have significant implications for policy and program development in alternative schools. The total estimated cost to respondents is \$39,375 assuming a minimum wage of \$5.25 for the 1997–1998 school year.

| Respondents | Number of respondents | Number of responses/respondent | Avg. burden/re-sponse (in hrs.) | Total burden (in hrs.) |
|-----------------------------------|-----------------------|--------------------------------|---------------------------------|------------------------|
| Alternative school students | 10,000 | 1 | 0.75 | 7,500 |

Dated: March 26, 1997.
