

systems necessary to avoid any of these conditions.

All parties who either directly withdraw Edwards Aquifer water or who reduce recharge to the aquifer, contribute to diminished springflows. Between late May and August 1996, minimum necessary flows were not sustained in either system, owing to widespread drought conditions and the level of a regional pumpage, particularly during emergency conditions. In August 1996, a Federal Court found that an emergency exists and ordered implementation of emergency measures in accord with the 1996 Emergency Withdrawal Reduction Plan, prepared by the court appointed Monitor.

Bexar Metropolitan Water District (District) is the second largest water purveyor in Bexar County, Texas and largely dependent upon withdrawals from the Edwards Aquifer.

The District proposes to adopt a Habitat Conservation Plan consistent with objectives of the approved San Marcos and Comal Springs and Associated Aquatic Ecosystems (Revised) Recovery Plan for the spring associated ecosystems, with the Federal Court ruling, and with Sections 9 and 10 of the Endangered Species Act. The District proposes to reduce its pumpage from the Edwards Aquifer on a pro rata basis to achieve compliance with the Withdrawal Reduction Plan. The District proposes to accomplish this purpose by implementing one or more measures, including but not limited to: development of alternative water resources (ground-water resources, surface water resources, reuse of treated effluents, etc.), landscape management practices (Xeriscape™, zoned irrigation, designated watering days, etc.); employment of water efficient devices; adoption of policies encouraging conservation; public education; deployment of alternative technologies in intensive water-using industries; other appropriate and effective measures; etc.

The District also proposes to include a mechanism in its Habitat Conservation Plan, for inclusion of other pumpers (municipal, industrial, commercial, or military) which, acting in concert with the District, meet certain criteria (for example, a target reduction rate in Edwards Aquifer withdrawals) that would be developed and included in the Habitat Conservation Plan and incidental take permit conditions.

In addition to considering impacts on listed species and their habitat, the EIS must include information on impacts from the proposal and alternatives to the proposal on other components of the human environment. These other

components include such things as air and water quality, cultural resources, other fish and wildlife species, social resources, and economic resources.

The Fish and Wildlife Service is gathering information necessary for the preparation of an EIS. Information such as the following topics that would assist the Service in assessing the impacts of the issuance of an incidental take permit under the provisions of an HCP is being sought: the hydrogeology of the Edwards Aquifer and the effects of aquifer levels on springflows at Comal and San Marcos Springs as they relate to the habitat needs of federally listed species; potential water conservation measures and strategies to reduce the withdrawal demands on the Edwards Aquifer and their effects on springflows; alternate water supplies and their potential effect on reducing Edwards Aquifer water withdrawals and maintaining springflows; effects of aquifer level management and springflow changes on the quality of the human environment; and, any other issues or suggestions that would be relevant toward the Fish and Wildlife Service's review and development of alternatives.

Agency Information Collection Activities; Proposed Collection; Comment Request

ACTION: Notice of Information Collection Under Review; State Juvenile Corrections Organization Survey.

Office of Management and Budget (OMB) approval is being sought for the information collection listed below. This proposed information collection was previously published in the Federal Register and allowed 60 days for public comment.

The purpose of this notice is to allow an additional 30 days for public comments until February 12, 1997. This process is conducted in accordance with 5 Code of Federal Regulation, Part 1320.10. Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Department of Justice Desk Officer, Washington, DC, 20503. Additionally, comments may be submitted to OMB via facsimile to 202-395-7285. Comments may also be submitted to the Department of Justice (DOJ), Justice Management Division, Information Management and Security Staff, Attention: Department Clearance Officer, Suite 850, 1001 G Street, NW, Washington, DC, 20530. Additionally, comments may be submitted to DOJ via facsimile to 202-514-1534. Written comments and suggestions from the public and affected agencies should address one or more of the following points:

- (1) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency/component, including whether the information will have practical utility;
- (2) evaluate the accuracy of the agencies/components estimate of the burden of the proposed collection of

information, including the validity of the methodology and assumptions used;

(3) enhance the quality, utility, and clarity of the information to be collected; and

(4) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) Type of information collection: New collection.

(2) The title of the form/collection: State Juvenile Corrections Organization Survey.

(3) The agency form number, if any, and the applicable component of the Department sponsoring the collection. Form: None. Office of Juvenile Justice and Delinquency Prevention, Office of Justice Programs, United States Department of Justice.

(4) Affected public who will be asked or required to respond, as well as a brief abstract. Primary: State juvenile corrections agencies. Other: None. This collection will gather specific information on the various State statutes and policies that affect the juvenile custody rates and juvenile custody populations of each state. This information will aid in the analysis of juvenile corrections data.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: 51 respondents at an average 6 hours per response.

(6) An estimate of the total public burden (in hours) associated with the collection: 306 burden hours.

Public comment on this proposed information collection is strongly encouraged.

Dated: January 8, 1997.

Robert B. Briggs,

Department Clearance Officer, United States Department of Justice.
