Department of the Navy

Notice of Scoping Meetings for Environmental Impact Statement for the Implementation of a Comprehensive Land Use Management Plan at the Naval Air Weapons Station, China Lake, CA

SUMMARY: On April 1, 1997, the Department of the Navy announced its intent to prepare an Environmental Impact Statement (EIS) to evaluate the potential environmental effects of implementing a comprehensive Land Use Management Plan for the Naval Air Warfare Center Weapons Division (NAWCWD), located at the Naval Air Weapons Station (NAWS), China Lake, California. The Navy's proposed action is the implementation of a comprehensive Land Use Management Plan (LUMP) at NAWS China Lake for managing existing and proposed land uses authorized under the California Desert Protection Act. Proposed land uses include, but are not limited to, ongoing and future military operations, public health and safety practices, and ongoing and future environmental resources management and conservation at NAWS China Lake. The LUMP will be developed in conformance with the Federal Land Policy and Management Act.

The EIS will also evaluate a range of land use management practices, including the no action alternative. Alternative land use management practices could include a range of activities of greater or lesser intensity of land use type or tempo. The no action alternative would implement a Land Use Management Plan that would not change the ongoing type or tempo of

land uses and environmental resources management direction or emphasis.

Six scoping meetings will be held to solicit public input and identify issues that need discussion in the EIS. The meetings will be held at the following times and locations: (1) the fairgrounds in Ridgecrest, CA on May 20, 1997 at 7:00 p.m.; (2) The Rand Community Building in Johannesburg, CA on May 21, 1997 at 7:30 p.m.; (3) The Learning Center in Independence, CA on May 22, 1997 at 7:00 p.m.; (4) Trona High School in Trona, CA on June 3, 1997 at 7:00 p.m.; (5) Barstow Community College in Barstow, CA on June 4, 1997 at 7:00 p.m.; and (6) Inyokern Elementary School in Inyokern, CA on June 5, 1997 at 7:00 p.m. A one-hour poster session will precede each meeting, so the public can familiarize itself with NAWS China Lake and the proposed action.

ADDRESSES: Agencies and the public are invited and encouraged to provide written comments in addition to, or in lieu of oral comments at the public scoping meetings. To be most helpful, scoping comments should clearly describe specific issues or topic which the EIS should address. Written comments must be postmarked by June 30, 1997 and should be mailed to Commander, Naval Air Weapons Station China Lake, Attn: Ms. Robin Hoffman, Land Use Planning Office, China Lake, CA 93555, telephone (619) 939-0935, fax (619) 939-2541.

FOR FURTHER INFORMATION CONTACT: Additional information concerning this notice may be obtained by contacting Ms. Robin Hoffman at (619) 939-0935.

Dated: April 21, 1997.

Subject Area Committee #2 will meet in closed session from 3:30–5:00 P.M. to review items, scoring criteria, and sample responses from the 1997 NAEP writing field test. This portion of the meeting must be closed because references will be made to specific items from the assessment and premature disclosure of the information presented for review would be likely to significantly frustrate implementation of a proposed agency action. Such matters are protected by exemption (9)(B) of Section 552b(c) of Title 5 U.S.C. Such matters are protected by exemption 9(B) of Section 552b(c) of Title 5 U.S.C. In the open session from 5:00–6:30 P.M., the Executive Committee will hear the results of a customer survey of NAEP users; discuss the status of NAGB committee redesign assignments; and hear a report on NAEP secondary analysis.

Between 10 a.m. and 12 noon, there will be open meetings of the following subcommittees: Design and Methodology, Reporting and Dissemination, and a joint meeting of Subject Area Committees #1 and #2. The Design and Methodology Committee will review and discuss the draft policy prepared for a short-form NAEP, and hear a briefing on plans for a NAEP Validity Studies Panel. Agenda items for the Reporting and Dissemination Committee include consideration of definitions of NAEP Reports: Comprehensive, Standard, Focused, and Market-Basket; review and discuss plans for NAEP Week; and hear presentations on various report release plans. The Joint Subject Area Committees #1 and #2 will discuss progress on their NAEP redesign topics. These topics include the draft framework policy, state options for NAEP, and results of the NCES/NAEP Constituent Survey.

The full Board will reconvene in open session at 12 p.m. to hear a briefing on the 1996 NAEP Science Report, have a presentation on and discussion of the reading and math initiatives, and to continue discussion on NAEP Redesign.
