

II. Current Actions

This is a request for OMB approval Under the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A) of a revision to Item 6 of ETA Form 8429. To comply with the nondiscrimination regulations (29 CFR Part 34) covering State Employment Security Agencies, Item 6 will be changed to read as follows: Persons wishing to file complaints of discrimination may file either with the SESA, or with the Directorate of Civil Rights (DCR), U.S. Department of Labor, 200 Constitution Avenue NW., room N-4123, Washington, DC 21210. There is no change in burden.

Type of Review: Revision.

Agency: Employment and Training Administration, Labor.

Titles: Services to Migrant and Seasonal Farmworkers Report and Employment Service Complaint Referral Record.

OMB Number: 1205-0039.

Frequency: Quarterly and on occasion, respectively.

Affected Public: State governments.

Number of Respondents: 208.

Estimated Cost Per Respondent: No cost to respondent.

Estimated Burden Hours: 5530.

Complaint Log Maintenance

1. Recordkeeping

Number of recordkeepers	168
Annual hours per recordkeeper	6.3
Recordkeepers Hours	1,059
2. Processing ETA Form 8429

Annual number of forms	2,520
Minutes per form	8
Processing Hours	327

Outreach Log

1. Recordkeeping

Number of Recordkeepers	150
Annual hours per recordkeeper	26
Recordkeepers Hours	3,900
2. Data Collection/Reporting ETA 5148

Annual number of reports	208
Minutes per report	70
Recordkeeping Hours	244

Comments submitted in response to this notice will be summarized and/or included in the request for Office Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: April 30, 1997.

John R. Beverly, III,

Director, U.S. Employment Service.

BILLING CODE 4510-30-M

NATIONAL CREDIT UNION ADMINISTRATION

Notice of Changes in Subject of Meeting; Sunshine Act Meeting

The National Credit Union Administration Board determined that its business required the deletion of the following item from the previously announced closed meeting (**Federal Register**, Vol. 62, No. 81, page 22973, Monday, April 28, 1997) scheduled for Friday, May 2, 1997.

1. Approval of Minutes of Previous Closed Meeting.

The Board voted unanimously that agency business required that this item be deleted from the closed agenda and that no earlier announcement of this change was possible.

The National Credit Union Administration Board also determined that its business required the addition of the following item to the closed agenda.

3. Request for Waiver of Reserving Requirements from Sections 116 (a) and (b) of the Federal Credit Union Act and Part 704 of NCUA's Rules and Regulations. Closed pursuant to exemption (8).

The Board voted unanimously that agency business required that this item be considered with less than the usual seven days notice, that it be closed to the public, and that no earlier announcement of this change was possible.

The previously announced items were:

1. Approval of Minutes of Previous Closed Meeting.
2. Personnel Action(s). Closed pursuant to exemption (2) and (6).

For Further Information Contact: Becky Baker, Secretary of the Board, Telephone (703) 518-6312.

Becky Baker,

Secretary of the Board.

BILLING CODE 7535-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-297]

Notice of Renewal of Facility License No. R-120; North Carolina State University

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Facility License No. R-120 for the North Carolina State University (the licensee), which renews the license for operation of the PULSTAR Research Reactor

located on the licensee's campus in Raleigh, North Carolina.

The facility is a non-power reactor that has been operating at a power level not in excess of 1000 kilowatts (thermal). Renewed Facility License No. R-120 will expire 20 years from its date of issuance.

The amended license complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I. Those findings are set forth in the license amendment.

Opportunity for hearing was afforded in the notice of the proposed issuance of this renewal in the **Federal Register** on December 28, 1988, at 53 FR 52535. No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

Continued operation of the reactor will not require alteration of buildings or structures, will not lead to significant changes in effluents released from the facility to the environment, will not increase the probability or consequences of accidents, and will not involve any unresolved issues concerning alternative uses of available resources. On the basis of the foregoing and on the Environmental Assessment, the Commission concludes that renewal of the license will not result in any significant environmental impacts.

The Commission has prepared a "Safety Evaluation Report Related to the Renewal of the Operating License for the Research Reactor at North Carolina State University" (NUREG-1572) for the renewal of Facility License No. R-120 and has, on the basis of that report, concluded that the facility can continue to be operated by the licensee without endangering the health and safety of the public.

The Commission also prepared an Environmental Assessment, which was published in the **Federal Register** on April 29, 1997 (62 FR 23280) for the renewal of Facility License No. R-120 and has concluded that this action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see (1) The application for amendment dated August 19, 1988, as supplemented on January 2, April 17, and December 18, 1989; April 17 and July 18, 1990; January 25, 1991; November 30, 1992; September 15, 1995; and October 4, November 25, and December 30, 1996; (2) Amendment No. 11 to Facility License No. R-120; (3) the related Safety Evaluation Report (NUREG-1572); and (4) the

Environmental Assessment dated April 18, 1997. These items are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC 20037.

Copies of NUREG-1572 may be purchased by calling (202) 275-2060 or (202) 275-2171, or write the Superintendent of Documents, U.S. Government Printing Office, Post Office Box 37082, Washington, DC 20013-7982.

Dated at Rockville, Maryland, this 30th day of April 1997.

For the Nuclear Regulatory Commission.

Seymour H. Weiss,

Director, Non-Power Reactors and Decommissioning Project Directorate, Division of Reactor Program Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 27-48]

Notice of Amendment Consideration; US Ecology

AGENCY: Nuclear Regulatory Commission.

ACTION: Consideration of an amendment to a license for disposal of low-level radioactive waste containing special nuclear material by US Ecology, incorporated and transfer of license to the State of Washington, and an opportunity for a hearing.

SUMMARY: The U.S. Nuclear Regulatory Commission is considering a request to amend License No. 16-19204-01. This license is issued to US Ecology, Incorporated (US Ecology) for the disposal of wastes containing special nuclear material (SNM) in the low-level radioactive waste (LLW) disposal facility, located near Richland, Washington. NRC licenses this facility under 10 CFR part 70. The amendment would reduce the SNM possession limit of the license, and NRC would subsequently transfer the license to the State of Washington. Washington Department of Health (WADOH) already regulates disposal of source and byproduct material at the Richland facility.

FOR FURTHER INFORMATION CONTACT: Timothy E. Harris, Low-Level Waste and Decommissioning Projects Branch, Division of Waste Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone: (301) 415-6613. Fax: (301) 415-5398.

Background

The LLW disposal facility located near Richland, Washington, is licensed by NRC for possession, storage, and disposal of SNM. The State of Washington licenses disposal of source and byproduct material at the facility. In correspondence dated March 31, 1997, US Ecology requested amendment of its NRC SNM license and subsequent transfer of the license to the State. As justification for the request, US Ecology noted a reduction in SNM-bearing waste volumes and the diminished cost-effectiveness of the license. Currently, the NRC license permits possession, storage, and disposal of greater than critical mass quantities of SNM, and acknowledges that the State-regulated source and byproduct disposal activities constitute the major site activities. Possession, storage, and disposal of less than critical mass quantities can be regulated by Agreement States, in accordance with 10 CFR part 150 (Exemptions and Continued Regulatory Authority in Agreement States and in Offshore Waters Under Section 274). Specifically, § 150.11 defines less than critical mass limits of SNM which can be regulated by Agreement States.

NRC plans to amend the license to reduce the SNM possession limit to those specified in § 150.11. This amendment will result in a change in process operations. The reduction in possession limit will not significantly change the types or amounts of effluents that may be released offsite, will not increase individual or cumulative occupational radiation exposure, will not be a significant construction impact, and will not significantly increase the potential for or consequences from radiological accidents. Accordingly, the amendment is categorically exempt from an environmental assessment under 10 CFR 51.22(c)(11). Following issuance of this amendment, NRC will transfer the license to WADOH.

NRC provides notice that this is a proceeding on an application for a license amendment falling within the scope of Subpart L, "Informal Hearing Procedures for Adjudication in Materials Licensing Proceedings," of NRC's rules and practice for domestic licensing proceedings in 10 CFR Part 2. Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(c). A request for a hearing must be filed within thirty (30) days of the date of publication of this **Federal Register** notice.

In addition to meeting other applicable requirements of 10 CFR part

2 of NRC's regulations, a request for a hearing filed by a person other than an applicant must describe in detail:

1. The interest of the requester in the proceeding;
2. How that interest may be affected by the results of the proceeding, including the reasons why the requester should be permitted a hearing, with particular reference to the factors set out in § 2.1205(g);
3. The requester's areas of concern about the licensing activity that is the subject matter of the proceeding; and
4. The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205(c).

In accordance with 10 CFR § 2.1205(e), each request for a hearing must also be served, by delivering it personally or by mail, to:

1. The applicant, US Ecology, Inc., 120 Franklin Road, Oak Ridge, Tennessee 37830, Attention: Ms. Sandra Beeler, and;

2. NRC staff, by delivery to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Attention: Rulemakings and Adjudication Branch; or hand-deliver comments to: 11555 Rockville Pike, Rockville, MD between 7:45 am and 4:15 pm, Federal workdays.

For further details with respect to this action, the application for amendment request is available for inspection at NRC's Public Document Room, 2120 L Street NW., Washington, DC 20555.

Dated at Rockville, Maryland, this 30th day of April 1997.

For the Nuclear Regulatory Commission.

John W.N. Hickey,

Chief, Low-Level Waste and Decommissioning Projects Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.
