

Department of Commerce, (202) 482-3634; or Richard Watkins, International Commodities Division, U.S. Department of State, (202) 647-2871; co-chairs of the National Defense Stockpile Market Impact Committee.

SUPPLEMENTARY INFORMATION: Under the authority of the Strategic and Critical Materials Stock Piling Act of 1979, as amended, (50 U.S.C. 98 *et seq.*), the Department of Defense (DOD), as National Defense Stockpile Manager, maintains a stockpile of strategic and critical materials to supply the military, industrial, and essential civilian needs of the United States for national defense. Section 3314 of the Fiscal Year (FY) 1993 National Defense Authorization Act (NDAA) (50 U.S.C. 98h-1) formally established a Market Impact Committee (the Committee) to "advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions and disposals of materials

from the stockpile. * * * The Committee must also balance market impact concerns with the statutory requirement to protect the Government against avoidable loss.

The Committee is comprised of representatives from the Departments of Commerce, State, Agriculture, Defense, Energy, Interior, Treasury and the Federal Emergency Management Agency and is co-chaired by the Departments of Commerce and State. The FY 1993 NDAA directs the Committee to "consult from time to time with representatives of producers, processors and consumers of the types of materials stored in the stockpile."

Because of current industry demand and favorable market conditions, DOD has requested the Committee to consider proposed revisions to the Annual Materials Plan (AMP) disposal levels for Analgesics, Columbium (Ferro), Graphite, and Vanadium Pentoxide from the National Defense Stockpile in the

Fiscal Year (FY) 1997 and (except Vanadium Pentoxide) FY 1998 AMPs. In order for the Committee to obtain sufficient information to prepare its recommendations to DOD, the Committee requests that interested parties provide comment on the potential market impact of the proposed revised disposals of these commodities as listed below.

Included with the AMP listing of materials below are the proposed maximum disposal quantity for each material. These quantities are not sales target disposal quantities. They are only a statement of the proposed maximum disposal quantity of each material that may be sold in a particular fiscal year. The quantity of each material that will actually be offered for sale will depend on the market for the material at the time as well as on the quantity of material approved for disposal by Congress.

Material	Units	Current FY 1997 quantity	Revised FY 1997 quantity
PROPOSED REVISIONS TO FISCAL YEAR 1997 AMP			
Analgesics	AMA Lb	2,500	64,128
Columbium (Ferro)	Lb Cb	60,000	200,000
Graphite	ST	1,220	2,660
Vanadium Pentoxide	ST V	200	400
PROPOSED REVISIONS TO FISCAL YEAR 1998 AMP			
Analgesics	AMA Lb	2,500	64,128
Columbium (Ferro)	Lb Cb	100,000	200,000
Graphite	ST	1,220	2,660

The Committee requests that interested parties provide written comments, supporting data and documentation, and any other relevant information on the potential market impact of the sale of any of the commodities in the above lists. Although comments in response to this Notice must be received by May 27, 1997 to ensure full consideration by the Committee, interested parties are encouraged to submit additional comments and supporting information at any time thereafter to keep the Committee informed as to the market impact of the sale of the commodities. Public comment is an important element of the Committee's market impact review process.

Public comments received will be made available at the Department of Commerce for public inspection and copying. Material that is national security classified or business confidential will be exempted from public disclosure. Anyone submitting

business confidential information should clearly identify the business confidential portion of the submission and also provide a non-confidential submission that can be placed in the public file. Communications from agencies of the United States Government will not be made available for public inspection.

The public record concerning this notice will be maintained in the Bureau of Export Administration's Records Inspection Facility, Room 4525, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230, telephone (202) 482-5653. The records in this facility may be inspected and copied in accordance with the regulations published in Part 4 of Title 15 of the Code of Federal Regulations (15 CFR 4.1 *et seq.*).
