

documentation must be submitted as evidence of eligibility:

- Certification from a community official stating the building is not located in a designated CBRS area.
- A legally valid building permit or certification from a community official stating that the building's start of

construction date preceded the date that the community was identified in the system.

- Certification from the governmental body overseeing the area indicating that the building is used in a manner consistent with the purpose for which the area is protected.

Affected Public. Individuals or households; Business or other for-profit; Not-for-profit institutions; Farms; Federal Government; State, Local or Tribal Government.

Estimated Total Annual Burden Hours. 75.

No. of respondents (A)	Frequency of response (B)	Hours per response (C)	Annual burden Hours (A×B×C)
50	once per respondent	1.5	75

Estimated Total Cost to Respondents. \$500 (50 respondents × \$10 per respondent). The cost to the respondent, i.e., applicant for flood insurance, is the cost, if any, to obtain the required documentation from local officials. Fees charged, if any, to the applicants, are nominal, i.e., the cost of photocopying the public record. Information of this type is frequently provided upon request free of charge by the community as a public service. The average cost to the respondent is estimated to be \$10, the cost to make phone calls, mail a written request, or make a trip to a local office to obtain the document, and includes any copying fees which may be charged by the local office.

Estimated Total Cost to the Government. \$199.50 (50 responses × \$3.99 per response). The dollar cost to the Federal Government to process, analyze and maintain the information which is submitted by the applicant for National Flood Insurance Program insurance along with the application is minimal. The information required under this information collection is processed in conjunction with the application for NFIP insurance. The government pays the NFIP servicing contractor an annual figure of \$19.93 per new policy. The dollar cost to the government to process the documentation required by this information collection is estimated to be \$3.99, arrived at by allocating 20% of the amount paid to the NFIP servicing agent to process a new application.

COMMENTS: Written comments are solicited to (a) Evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) evaluate the accuracy of the estimated costs to respondents to provide the information to the agency; (d) enhance the quality, utility, and

clarity of the information to be collected; and (e) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Comments should be received by July 11, 1997.

ADDRESSES: Interested persons should submit written comments to Muriel B. Anderson, FEMA Information Collections Officer, Federal Emergency Management Agency, 500 C Street, SW, Room 311, Washington, DC 20472. Telephone number (202) 646-2625. FAX number (202) 646-3524.

FOR FURTHER INFORMATION CONTACT: Contact Donald R. Beaton, Jr., Chief Underwriter, Federal Insurance Administration at (202) 646-3442 for additional information. Contact Ms. Anderson at (202) 646-2625 for copies of the proposed collection of information.

Dated: April 30, 1997.

Reginald Trujillo,

Director, Program Services Division,
Operations Support Directorate.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Submission for Emergency Review and Clearance by OMB; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA) has submitted the following request for emergency processing of a collection of information to the Office of Management and Budget (OMB) for review and clearance under the

Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). OMB approval has been requested by May 2, 1997. FEMA is seeking emergency clearance to obtain data that will be used in the preparation of a report to the President and Congress by October 1, 1997, on the status of States' capabilities to respond to disaster, including a baseline summary of the Nation's emergency management capabilities.

Collection of Information

Title: Capability Assessment Tool.

Type of Review: New.

Abstract: FEMA has developed a comprehensive emergency management capability assessment process to obtain baseline data of the Nation's emergency management system. States will use the Capability Assessment Tool data collection instrument to assess and develop their emergency management capabilities. The fiscal year 1997 data collection is the first assessment and will establish the baseline of capabilities. The States will use the baseline data to negotiate with FEMA Regions Performance Partnership Agreement (PPA) and annual Cooperative Agreement (CA) submissions to FEMA. The initial assessment is the beginning of a cyclical process in which similar assessments would occur every 2 years in step with the PPA/CA cycle, identifying capability improvements over time. The initial assessments should be completed by September 1, 1997. The data will enable FEMA to: assess States' emergency management performance and readiness; strategically manage and coordinate emergency resources at all governmental levels; assure that Federal funding to State and local governments under the PPA/CA is properly managed and targeted to those areas that need improvement; and, analyze program performance as part of the PPA/CA to satisfy the Government Performance and Results Act of 1993.

Affected Public: State, local or tribal government.

Estimated Total Annual Burden Hours: 4,480.

Number of Responses: 56.

Estimated Hours Per Response: 80 hours.

Frequency: Biennial.

Estimated Annual Cost to

Respondents: The estimated average single state cost is \$1,640. The total estimated annual cost for 56 States and territories is \$91,840.

COMMENTS: Written comments are solicited to (a) Evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Comments on the collection of information will be accepted by FEMA through August 31, 1997.

ADDRESSES: Direct comments on the collection of information to the Office of Management and Budget, Office of Information and Regulatory Affairs, ATTN: Ms. Victoria Baecher-Wassmer, Desk Officer for the Federal Emergency Management Agency, Washington, DC 20503. Telephone number (202) 395-5871.

FOR FURTHER INFORMATION CONTACT: For copies of the proposed collection of information, contact Muriel B. Anderson, FEMA Information Collections Officer, Federal Emergency Management Agency, 500 C Street, SW., Room 311, Washington, DC 20472. Telephone number (202) 646-2625.

Dated: April 28, 1997.
