

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Subcommittee Meeting on Planning and Procedures; Notice of Meeting

The ACRS Subcommittee on Planning and Procedures will hold a meeting on June 10, 1997, Room T-2B1, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed pursuant to 5 U.S.C. 552b(c) (2) and (6) to discuss organizational and personnel matters that relate solely to internal personnel rules and practices of ACRS, and information the release of which would constitute a clearly unwarranted invasion of personal privacy.

The agenda for the subject meeting shall be as follows:

Tuesday, June 10, 1997—12:00 Noon until 1:30 p.m.

The Subcommittee will discuss proposed ACRS activities and related matters. It may also discuss the qualifications of candidates for appointment to the ACRS. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff person named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

Further information regarding topics to be discussed, the scheduling of sessions open to the public, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted therefor can be obtained by contacting the cognizant ACRS staff person, Dr. John T. Larkins (telephone: 301/415-7360) between 7:30 a.m. and 4:15 p.m. (EDT). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any changes in schedule, etc., that may have occurred.

Dated: May 6, 1997.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

NUCLEAR REGULATORY COMMISSION

Draft Regulatory Guide; Issuance, Availability

The Nuclear Regulatory Commission has issued for public comment proposed revisions of three guides in its Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques used by the staff in evaluating specific problems or postulated accidents, and data needed by the staff in its review of applications for permits and licenses.

The draft guides are temporarily identified as DG-1048, which is the proposed Revision 31 to Regulatory Guide 1.84, "Design and Fabrication Code Case Acceptability, ASME Section III, Division 1"; DG-1049, which is the proposed Revision 31 to Regulatory Guide 1.85, "Materials Code Case Acceptability, ASME Section III, Division 1"; and DG-1050, which is the proposed Revision 12 to Regulatory Guide 1.147, "Inservice Inspection Code Case Acceptability, ASME Section XI, Division 1," and they will be in Division 1, "Power Reactors." DG-1048 and DG-1049 are being developed to provide updated guidance on ASME Code Cases that are acceptable to the NRC staff for use in inservice inspections of light-water-cooled nuclear power plants.

These draft guides are being issued to involve the public in the early stages of regulatory positions in these areas. The draft guides have not received complete staff review and do not represent an official NRC staff position.

Public comments are being solicited on the guides. Comments should be accompanied by supporting data. Written comments may be submitted to the Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Copies of comments received may be examined at the NRC Public Document Room, 2120 L Street NW., Washington,

DC. Comments will be most helpful if received by July 21, 1997.

Comments may be submitted electronically, in either ASCII text or Wordperfect format (version 5.1 or later), by calling the NRC Electronic Bulletin Board on FedWorld. The bulletin board may be accessed using a personal computer, a modem, and one of the commonly available communications software packages, or directly via Internet.

If using a personal computer and modem, the NRC subsystem on FedWorld can be accessed directly by dialing the toll free number 1-800-303-9672. Communication software parameters should be set as follows: parity to none, data bits to 8, and stop bits to 1 (N,8,1). Using ANSI or VT-100 terminal emulation, the NRC NUREGs and RegGuides for Comment subsystem can then be accessed by selecting the "Rules Menu" option from the "NRC Main Menu." For further information about options available for NRC at FedWorld, consult the "Help/Information Center" from the "NRC Main Menu." Users will find the "FedWorld Online User's Guides" particularly helpful. Many NRC subsystems and databases also have a "Help/Information Center" option that is tailored to the particular subsystem.

The NRC subsystem on FedWorld can also be accessed by a direct dial phone number for the main FedWorld BBS, 703-321-3339, or by using Telnet via Internet, fedworld.gov. If using 703-321-3339 to contact FedWorld, the NRC subsystem will be accessed from the main FedWorld menu by selecting the "Regulatory, Government Administration and State Systems," then selecting "Regulatory Information Mall." At that point, a menu will be displayed that has an option "U.S. Nuclear Regulatory Commission" that will take you to the NRC Online main menu. The NRC Online area also can be accessed directly by typing "/go nrc" at a FedWorld command line. If you access NRC from FedWorld's main menu, you may return to FedWorld by selecting the "Return to FedWorld" option from the NRC Online Main Menu. However, if you access NRC at FedWorld by using NRC's toll-free number, you will have full access to all NRC systems but you will not have access to the main FedWorld system.

If you contact Fedworld using Telnet, you will see the NRC area and menus, including the Rules menu. Although you will be able to download documents and leave messages, you will not be able to write comments or upload files (comments). If you contact Fedworld using FTP, all files can be

accessed and downloaded but uploads are not allowed; all you will see is a list of files without descriptions (normal Gopher look). An index file listing all files within a subdirectory, with descriptions, is included. There is a 15-minute time limit for FTP access.

Although Fedworld can be accessed through the World Wide Web, like FTP that mode only provides access for downloading files and does not display the NRC Rules menu.

For more information on NRC bulletin boards, call Mr. Arthur Davis, Systems Integration and Development Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415-5780; e-mail AXD3@nrc.gov. For more information on the draft regulatory guides, contact E.O. Woolridge, telephone (301) 415-6004; e-mail EOW@nrc.gov.

Although a time limit is given for comments on these draft guides, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

Regulatory guides are available for inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC. Requests for single copies of active or draft guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Distribution and Mail Services Section. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 28th day of April 1997.

For the Nuclear Regulatory Commission.

Lawrence C. Shao,

*Director, Division of Engineering Technology,
Office of Nuclear Regulatory Research.*

OFFICE OF PERSONNEL MANAGEMENT

Submission for OMB Review; Comment Request for Review of an Expiring Information Collection: Federal Employees Health Benefits (FEHB) Annuitant Express Open Season Interactive Voice Response System (IVR)

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management will be submitting to the Office of Management and Budget a request for review of an expiring information collection. FEHB Annuitant Express Open Season IVR (Interactive Voice Response System) is used by retirees and survivors to collect information for changing FEHB enrollments, requesting plan brochures, requesting a change of address, requesting cancellation or suspension of FEHB benefits, requesting payment directly to the Office of Personnel Management where the FEHB payment is greater than the monthly annuity amount, or requesting a copy of the FEHB Customer Satisfaction Survey results. We are replacing the OPM 2809 EZ1 and OPM 2809 EZ2 with the IVR technology to improve our response time to our customers.

We estimate 75,000 requests will be completed annually. Each request takes approximately 10 minutes to complete. The annual estimated burden is 12,525 hours.

For copies of this proposal, contact Jim Farron on (202) 418-3208, or E-mail to jmfarron@mail.opm.gov

DATES: Comments on this proposal should be received on or before June 11, 1997.

ADDRESSES: Send or deliver comments to—Lorraine E. Dettman, Chief, Operations Support Division, Retirement and Insurance Service, U.S. Office of Personnel Management, 1900 E Street, NW, Room 3349, Washington, DC 20415.

FOR INFORMATION REGARDING

ADMINISTRATIVE COORDINATION CONTACT: Mary Beth Smith-Toomey, Management Services Division, (202) 606-0623.

Office of Personnel Management.

James B. King,

Director.

POSTAL SERVICE

Privacy Act of 1974, System of Records

AGENCY: Postal Service.

ACTION: Notice of the addition of a new routine use and modifications to an existing system of records.

SUMMARY: This document publishes notice of the addition of a new routine use and modifications to Privacy Act system of records USPS 140.020, Postage—Postage Meter Records. The new routine use clarifies that the Postal Service may make disclosures to authorized postage meter manufacturers for administering postage meter activities. The modifications expand the system location to include a centralized site and clarify the language of an existing routine use and other segments of the system description.

DATES: This proposal will become effective without further notice on June 23, 1997, unless comments received on or before that date that result in a contrary determination.

ADDRESSES: Written comments on this proposal should be mailed or delivered to Payroll Accounting/Records, United States Postal Service, 475 L'Enfant Plaza SW, Room 8800, Washington, DC 20260-5243. Copies of all written comments will be available at the above address for public inspection and photocopying between 8 a.m. and 4:45 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Betty E. Sheriff, (202) 268-2608.

SUPPLEMENTARY INFORMATION: System of records USPS 140.020, Postage—Postage Meter Records, collects information concerning postage meter use. This notice adds a routine use consistent with existing practice and postal regulations and clarifies a routine use and other segments of the system description as explained below.

Customers who wish to pay postage using a postage meter may request authorization from the Postal Service. If authorization is granted, the customer is issued a license to use a postage meter. Postage meters are available only by lease from authorized manufacturers. Because the Postal Service holds these manufacturers responsible for the control, operation, maintenance, and replacement of customer meters, the Postal Service and the manufacturers must exchange relevant information about the meter holders. For example, if a meter manufacturer cannot locate one of its meters in service, the Postal Service requires the manufacturer to take several actions. One of those
