**[Docket No. CP97-159-000]****Transwestern Pipeline Company; Notice of Application**

January 13, 1997.

Take notice that on December 18, 1996, Transwestern Pipeline Company (Transwestern), 1400 Smith Street, P.O. Box 1188, Houston, Texas, 77251-1188, pursuant to Section 7(c) of the Natural Gas Act (NGA), filed an application with the Commission in Docket No. CP97-159-000 for a certificate of public convenience and necessity to operate two compressor units at their design horsepower level, in order to increase operational efficiency and capacity on that portion of Transwestern's system described as its "Panhandle Lateral", all

as more fully set forth in the application which is on file with the Commission and open to the public for inspection.

Specifically, Transwestern proposes to increase the horsepower of each of the compressor units at its P1 and P2 Compressor Stations in Roosevelt County, New Mexico and Deaf Smith County, Texas, respectively, to a design capacity level of 4,700 horsepower (HP). Each compressor station currently has one Solar turbine operating at a 3,500 ISO HP equivalent, the current certificated capacity level. The increase in horsepower will be achieved by straightening the inlet guide vanes at the P1 and P2 compressor stations. Transwestern estimates the cost of straightening the inlet guide vanes is approximately \$22,600 which would be financed with internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should, on or before February 3, 1997, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C., 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that the request should be granted. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for Transwestern to appear or be represented at the hearing.
