[Docket No. 97N-0160]

Agency Information Collection Activities; Submission for OMB Review; Comment Request

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that the proposed collection of information listed below has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Submit written comments on the collection of information by June 16, 1997.

ADDRESSES: Submit written comments on the collection of information to the Office of Information and Regulatory Affairs, OMB, New Executive Office Bldg., 725 17th St. NW., rm. 10235, Washington, DC 20503, Attn: Desk Officer for FDA.

FOR FURTHER INFORMATION CONTACT: Margaret R. Wolff, Office of Information Resources Management (HFA-80), Food and Drug Administration, 5600 Fishers Lane, rm. 16B-19, Rockville, MD 20857, 301-827-1223.

SUPPLEMENTARY INFORMATION: In compliance with section 3507 of the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), FDA has submitted the following proposed collection of information to OMB for review and clearance:

Food Labeling; Nutrient Content Claims and Health Claims; Restaurant Foods

Section 403(r) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 343(r)) provides that food

labeling may contain nutrient content claims or health claims only if they are in compliance with regulations issued by FDA. FDA has issued regulations in §§ 101.10, 101.13, and 101.14 (21 CFR 101.10, 101.13, and 101.14) that set forth the requirements for restaurants making nutrient content claims and health claims regarding their food products. Section 101.10 requires that nutrition labeling in accordance with § 101.9 (21 CFR 101.9) shall be provided upon request for any restaurant food or meal for which a nutrient content claim or health claim is made. This regulation further provides that a restaurant may comply with the requirements of § 101.9 by providing information on the nutrient amounts that are the subject of the claim (e.g., "low fat, this meal provides less than 10 grams of fat" may serve as the functional equivalent of the complete nutritional information as described in § 101.9). For compliance purposes, a restaurant is required by §§ 101.13 and 101.14 to provide appropriate regulatory officials with information that provides a reasonable basis to conclude that the food complies with the definition for the claim. For example, a restaurant may choose to offer an item purchased from a commercial manufacturer where the item is appropriately labeled by the manufacturer as "low fat." In such a case, the restaurant would not have to collect any additional information. Regulatory officials will use the information provided by the restaurant in lieu of analysis to determine whether nutrient content claims or health claims made by a restaurant concerning its food products are in compliance with the requirements of §§ 101.10, 101.13, and 101.14. FDA expects that restaurants will choose the least burdensome option that complies with the regulations.

FDA estimates the burden resulting from the records retention and disclosure requirements of §§ 101.10, 101.13, and 101.14 as follows:

ESTIMATED ANNUAL REPORTING BURDEN

21 CFR Section	No. of Respondents	Annual Frequency per Response	Total Annual Responses	Hours per Response	Total Hours
101.10 101.13(q)(5)(ii) 101.14(d)(2)(vii)(B) and (d)(3)	265,000	1.5	397,500	0.25	99,375

ESTIMATED ANNUAL RECORDKEEPING BURDEN

21 CFR Section	No. of Recordkeepers	Annual Frequency per Recordkeeping	Total Annual Records	Hours per Recordkeeper	Total Hours
101.10	265,000	1.5	397,500	0.75	298,125
