

All COLA accredited laboratories are currently required to meet these CLIA standards. We have, therefore, found the COLA personnel requirements to be equal to the CLIA personnel requirements.

#### **Subpart P—Quality Assurance for Moderate or High Complexity Testing or Both**

We have determined that COLA's requirements for immunohematology are equal to the CLIA requirements of this subpart. COLA also makes educational materials available to its accredited laboratories, which provide further information on quality assurance in the office laboratory.

#### **Subpart Q—Inspections**

The COLA inspection process, which is announced and performed on-site on a biennial basis, is equal to the applicable CLIA requirements at §§ 493.1777. Therefore, we have determined that COLA's requirements are equal to the requirements of this subpart.

#### **Subpart R—Enforcement Procedures for Laboratories**

COLA meets the requirements of subpart R to the extent it applies to accreditation organizations. COLA policy stipulates the action it takes when laboratories it accredits do not comply with its essential standards pertaining to immunohematology. When appropriate, COLA will deny accreditation to a laboratory and report the denial to HCFA within 30 days. COLA also provides an appeals process for laboratories that have had accreditation denied.

We have determined that COLA's laboratory enforcement and appeal policies are essentially equivalent to the requirements of this subpart as they apply to accreditation organizations.

#### **IV. Federal Validation Inspections and Continuing Oversight**

The Federal validation inspections of COLA accredited laboratories, as specified in § 493.507, may be conducted on a representative sample basis or in response to substantial allegations of noncompliance, "complaint inspections". The outcome of those validation inspections, performed by HCFA, the State survey agency, or a HCFA agent, will be HCFA's principal means for verifying that the laboratories accredited by COLA remain in compliance with CLIA requirements. This Federal monitoring is an on-going process.

#### **V. Removal of Approval as an Accrediting Organization**

Our regulations at § 493.511 provide that the approval of an accreditation organization, such as that of COLA, may be removed by HCFA for cause, prior to the end of the effective date of approval. If validation inspection outcomes and the comparability or validation review produce findings as described at § 493.509(a), HCFA will conduct a review of the accreditation organization's program. A review is also conducted when the validation review findings, irrespective of the rate of disparity (as defined in § 493.2), indicate widespread or systematic problems in the organization's processes. These findings provide evidence that the organization's requirements are no longer equivalent to the CLIA requirements.

If it is determined that COLA has failed to adopt requirements that are equal to or more stringent than the CLIA requirements, or widespread systemic problems exist in its inspection process, a probationary period, not to exceed one year, may be given to allow COLA to adopt comparable requirements. Based on an evaluation of any of the items stipulated at § 493.511(d), a determination will be made as to whether or not COLA retains its approved status as an accreditation organization under CLIA. If approved status is denied, an accreditation organization such as COLA may resubmit its application when it: (1) Has revised its program to address the rationale for the denial; (2) demonstrated that it can reasonably assure that its accredited laboratories meet CLIA condition level requirements; and (3) resubmits its application for approval as an accreditation organization in its entirety. If, however, an accrediting organization requests reconsideration of an adverse determination in accordance with subpart D of part 488 of our regulations, it may not submit a new application until a final reconsideration determination is issued.

Should circumstances result in COLA having its approval withdrawn, we will publish a notice in the **Federal Register** explaining the basis for removing its approval.

In accordance with the provisions of Executive Order 12866, this notice was not reviewed by the Office of Management and Budget.
