Title: School-to-Work Progress

Measures.

Frequency: Annually.

Affected Public: Not-for-profit institutions; State, local or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Burden: Responses: 1,025

Burden Hours: 6,800

Abstract: The Progress Measures Survey focuses on four elements of Title IV, Section 402 of the School-to-Work Opportunities Act: student participation in school-to-work; institutional and employer participation; leveraging of funds; and outcomes. The participation measures are designed to track elaboration of local partnership School-to-Work (STW) systems; the leveraging measures are intended to capture efforts to develop sources of funding that will enable STW to be self-sustaining after sunset of the legislation; and the outcomes measures are indicators of achievement of the Act's primary goals. These data, collected on a regular basis, will provide important evidence of state and local partnership commitments to the legislative mandate.

SUPPLEMENTARY INFORMATION: The Energy Conservation Program for Consumer Products (other than automobiles) was established pursuant to the Energy Policy and Conservation Act, as amended (EPCA), which requires the Department to prescribe standardized test procedures to measure the energy consumption of certain consumer products, including vented home heating equipment. The intent of the test procedures is to provide a comparable measure of energy consumption that will assist consumers in making informed purchasing decisions, and will determine whether a product complies with the applicable energy conservation standard. These test procedures appear at Title 10 CFR part 430, subpart B.

The Department amended the test procedure rules to provide for a waiver process by adding § 430.27 to Title 10 CFR Part 430. 45 FR 64108, September 26, 1980.
