

(expressed as a decimal) in the annual average PPI-FG from 1995 to 1996, minus one percent, is .016583.² Oil pipelines must multiply their July 1, 1996–June 30, 1997 rate ceiling levels by 1.016583 to compute their rate ceiling levels for the period July 1, 1997 through June 30, 1998, in accordance with 18 CFR 342.3(d).

To obtain July 1, 1997–June 30, 1998 ceiling levels, pipelines must first calculate their ceiling levels for the January 1, 1995–June 30, 1995 index period, by multiplying their December 31, 1994 rates by 1.002175. Pipelines must then multiply those ceiling levels by 0.996514 to obtain the July 1, 1995–June 30, 1996 ceiling levels, and then multiply those ceiling levels by 1.009124 to obtain the July 1, 1996–June 30, 1997 ceiling levels. Finally, pipelines must multiply the July 1, 1996–June 30, 1997 ceiling levels by 1.016583 to obtain the July 1, 1997–June 30, 1998 ceiling levels. See *Explorer Pipeline Company*, 71 FERC ¶ 61416 n.6 (1995) for an explanation of how ceiling levels must be calculated.

DEPARTMENT OF ENERGY

Western Area Power Administration

Parker-Davis Project—Proposed Firm Power Charge and Firm and Nonfirm Transmission Service Rate

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of proposed charge and rate adjustment.

SUMMARY: The Western Area Power Administration (Western) is initiating a rate adjustment process for firm power and firm and nonfirm transmission service for the Parker-Davis Project (P-DP). The existing rate schedules were placed into effect on October 1, 1995, under Rate Order WAPA-68 which was approved on a final basis by the Federal Energy Regulatory Commission on April 19, 1996. There is a need to modify the power repayment study (PRS) and rate design for firm power and firm and nonfirm transmission service to provide sufficient revenue to pay all annual costs (including interest expense), plus

repayment of required investment within the allowable time period. The charge/rate impacts are detailed in a rate brochure to be distributed to all interested parties. The proposed charges/rates for firm power and firm and nonfirm transmission service are expected to become effective October 1, 1997.

DATES: Submit comments on or before August 21, 1997. The forum dates are:

1. Public information forum, June 10, 1997, 10 a.m., Phoenix, AZ.
2. Public comment forum, July 14, 1997, 10 a.m., Phoenix, AZ.

ADDRESSES: Written comments should be sent to the Western Area Power Administration, Desert Southwest Regional Office, 615 South 43rd Avenue, Phoenix, Arizona 85009–5313. The public forums will be held at the Desert Southwest Regional Office.

FOR FURTHER INFORMATION CONTACT: Mr. J. Tyler Carlson, Regional Manager, (602) 352–2453 or Mr. Anthony H. Montoya, Assistant Regional Manager for Power Marketing, (602) 352–2789.

SUPPLEMENTARY INFORMATION: The proposed Fiscal Year 1998 (FY 1998) Generation Charge for P-DP firm power is based on an Annual Net Expense Allocated to Generation of \$5,616,123. The Calculated Capacity Rate for FY 1998 will be \$0.90 per kilowatt-month (kW-mo) and the Calculated Energy Rate for FY 1998 will be 2.09 mills/kWh. The proposed firm transmission service rate for FY 1998 will be \$16.16 per kilowatt-year (kW-yr) (billed at \$1.35 per kW-mo) and the proposed nonfirm transmission service rate for FY 1998 will be 3.07 mills/kWh, based on Annual Net Expenses Allocated to Transmission of \$26,306,972. The P-DP proposed rate for transmission service for Salt Lake City Area Integrated Projects (Integrated Projects) power customers is \$8.08 per kilowatt-season (\$1.35 per kW-mo) which is one-half of the P-DP proposed rate for firm transmission service of \$16.16 per kW-yr. The proposed charges/rates reflect an increase in the Annual Net Expenses from \$28,521,763 under the currently approved rates to \$31,923,095 in the proposed rates.

Since the proposed changes in the PRS, rate design, and charges/rates constitute a major rate adjustment as defined by the procedures for public participation in general rate adjustments, as cited below, both a public information forum and a public comment forum will be held. After review of public comments, Western will recommend proposed rates for approval on an interim basis by the Deputy Secretary of DOE.

Power and transmission rates for the P-DP are established pursuant to the Department of Energy Organization Act (42 U.S.C. 7101 *et seq.*) and the Reclamation Act of 1902 (43 U.S.C. 388 *et seq.*), as amended and supplemented by subsequent enactments, particularly section 9(c) of the Reclamation Project Act of 1939 (43 U.S.C. 485h(c)) and the Act of May 28, 1954 (ch. 241, 68 Stat. 143).

By Amendment No. 3 to Delegation Order No. 0204–108, published November 10, 1993 (58 FR 59716), the Secretary of Energy delegated (1) the authority to develop long-term power and transmission rates on a nonexclusive basis to the Administrator of Western; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to FERC. Existing DOE procedures for public participation in power rate adjustments (10 CFR Part 903) became effective on September 18, 1985 (50 FR 37835).

Availability of Information

All brochures, studies, comments, letters, memoranda, and other documents made or kept by Western for the purpose of developing the proposed rates for firm power and firm and nonfirm transmission service are and will be made available for inspection and copying at Western's Desert Southwest Regional Office, located at 615 South 43rd Avenue, Phoenix, AZ 85009–5313.

Determination Under Executive Order 12866

DOE has determined that this is not a significant regulatory action because it does not meet the criteria of Executive Order 12866, 58 FR 51735. Western has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Environmental Evaluation

In compliance with the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*; Council on Environmental Quality Regulations (40 CFR Parts 1500–1508); and DOE NEPA Regulations (10 CFR Part 1021), Western has determined that this action is categorically excluded from the preparation of an environmental assessment or an environmental impact statement.

Expiration Date: 8/31/97. This is a request for extension of a currently approved collection.

Abstract: Section 6(g) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) requires any producer or exporter of pesticides, registrant of a pesticide, applicant for registration of a pesticide, applicant for or holder of an experimental use permit, commercial applicator, or any person who distributes or sells any pesticide, who possesses any pesticide which has had its registration suspended or canceled under section 6 to notify the

Administrator and appropriate State and local officials of: (1) Such possession; (2) the quantity of such pesticide such person possesses, and (3) the place at which such pesticide is stored.

EPA may require affected persons to submit information on the storage of canceled or suspended pesticides through FIFRA section 6 Suspension and/or Cancellation orders or through notices published in the **Federal Register**. The formats, procedures, and identification of persons who must submit FIFRA section 6(g) information will appear in the Suspension/Cancellation Order or **Federal Register** notice itself.

The information required by FIFRA section 6(g) will be used by the Agency for compliance monitoring purposes (identification of areas where large amounts of suspended/canceled products are being stored, inspection targeting to assure adequate storage and compliance with the terms of the cancellation or suspension order, inspections to confirm the adequacy of the registrant's recall plans, etc.), indemnification determinations for emergency suspended and canceled products, the determination of disposal burdens, to aid the FIFRA section 19 recall process, and to aid the Agency in the development of a reimbursement plan for the registrant's costs for the storage of canceled and suspended pesticides which have been recalled under FIFRA section 19. The information submitted is not considered confidential. However, if any records are declared CBI by a respondent, the data will be treated in accordance with the provisions of FIFRA section 10, and by 40 CFR Part 2. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.5 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Producer, Exporter Registrant or Applicant, *et. al.* for Pesticides.
