

following developed camping and picnic sites are covered under this restriction: Mattole, Tolkán, Horse Mountain, Honeydew Creek, and Wailaki.

C. Vehicle Barriers: Taking any vehicle through, around, or beyond any structure, restrictive sign, recognizable barricade, fence, gate, or traffic control barrier is prohibited.

D. Camping Closure: BLM administered lands within the following areas are closed to camping (overnight occupancy) outside of developed campgrounds: Public Lands within 500 feet of Chemise Mountain Road; Public Lands within 500 feet of Shelter Cove Road between milepost 5 and the intersection with Chemise Mountain Road; Public Lands adjacent to Lower Pacific Drive including Mal Coombs Park, Seal Rock Picnic Area, Abalone Point, and all other BLM managed oceanfront lots within the Shelter Cove Subdivision; Public Lands south of Telegraph Creek and north of Humboldt Creek known as the Black Sands Beach Parking Area; Public Lands within Township 3 South, Range 1 East, Sections 6 and 7 known as the Honeydew Creek parcel; and Public Lands within 500 feet of King Peak Road between milepost 2 and 7.

EFFECTIVE DATE: The rules are effective May 20, 1997.

SUPPLEMENTARY INFORMATION: The above supplementary rules are being implemented for the following purposes:

A. Parking, Black Sands Beach: Wave erosion of the existing parking area has severely reduced its size to the point that larger vehicles and trailers cannot safely park or turn around, especially since the lot is often filled to capacity. Enlargement of the existing lot is not feasible, and efforts are being made to acquire an alternate parking area to accommodate larger vehicles.

B. Parking, Developed Camping and Picnic Sites: This rule is intended to be used in conjunction with an improved information program to increase the efficiency of use at developed camping/picnic areas. Presently, visitors often park in camp/picnic sites to hike, backpack or pursue other activities that do not require use of the site. Comparable access for these activities is available from nearby parking locations. Often, all campsites are full, denying use to additional campers/picnickers, while these nearby parking areas have spots available.

C. Vehicle Barriers: Self explanatory.

D. Camping Closure: The closure along segments of Chemise Mountain and Shelter Cove Roads is intended to

protect critical salmon spawning and rearing habitat along the Bear Creek corridor from impacts. The oceanfront lots and parks (Seal Rock, Abalone Point and Mal Coombs) along Lower Pacific Drive are in a residential area and are not designed to accommodate overnight use. The closure along King Peak Road and of the Honeydew Creek Parcel is intended to reduce resource damage and maintenance costs from increased numbers of visitors camping in undeveloped sites adjacent to developed campgrounds so that they can use the facilities without paying fees. Because of extensive wave erosion, the Black Sands Beach Parking Area no longer has the capacity to accommodate any tent or vehicle camping. Violation of any of the above supplementary rules is punishable by a fine not to exceed \$100,000, and/or imprisonment not to exceed 12 months (43 CFR 8360.0-7).

Establishment of Supplementary Rules

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Establishment of Supplementary Rules for the Sixes River Recreation Area.

SUMMARY: The Coos Bay District proposes new supplementary rules to regulate recreational placer mining activities at the Sixes River Recreation Site in Curry County, Oregon and further describe penalties for violation of these proposed rules. The rules are designed to implement the existing Code of Federal Regulations and ensure consistency with recently adopted Oregon State rules and regulations governing the same activities. The supplementary rules apply only to the Sixes River Recreation Site.

The Sixes River, which passes through the Sixes River Recreation Area, has been designated as essential indigenous anadromous salmonid fish habitat by the Oregon Division of Fish & Wildlife (ODF&W). In accordance with this designation, the ODF&W, the Oregon Department of Environmental

Quality, and the Oregon Division of State Lands, adopted rules requiring authorization and permitting of mining and recreational placer mining activities, limitations on equipment size, and the establishment of in-water work periods governing these activities.

The Bureau of Land Management administers the public land the Sixes River crosses and has an interest in the protection of the water related resources, the adjoining riparian and terrestrial resources, and the protection of the physical developments existing at the recreation site.

Supplementary Rules

1. To ensure consistency with Oregon State rules and regulations governing placer mining activities at the Sixes Recreation Site, the following acts are prohibited.

a. Panning (manual or motorized), sluicing (manual or motorized), or dredging in streambed without the required general authorization or permit issued by the appropriate State Agency (ies).

b. Operating a motorized dredge rated over 10 horsepower, or having an intake suction hose over 4 inches in diameter.

c. Conducting panning, sluicing, or dredging outside the seasonal in-water work period specified by the ODF&W.

2. In order to enhance recreational opportunities and protect public resources at Sixes River Recreation site the following acts are prohibited:

a. Excavating and processing materials outside the existing wet perimeter. "Wet Perimeter" as defined in State rules and regulations is that area of the streambed which is under water, or exposed as a non-vegetated gravel bar surrounded on all sides by actively moving water, at the time the mining activity occurs.

b. Impounding of water or excavating to extend the natural wet perimeter existing at the time mining activity occurs.

c. Removing, disturbing, or excavating of any soil or vegetation within the area outside of the wet perimeter.

Comment Period

The BLM requests comments from the public concerning the above supplemental rules and prohibited acts. The comment period will be open for 30 days from the date of publication of this notice. Comments received or postmarked after this 30-day period may not be considered.

EFFECTIVE DATE: Unless substantive changes are made to the proposed Supplementary Rules for the Sixes River Recreation Area as a result of public comments received in response to this

Federal Register notice, these supplementary rules and prohibited acts will become effect July 7, 1997.

FOR FURTHER INFORMATION CONTACT: Neal Middlebrook, Area Manager, Myrtlewood Resource Area, Bureau of Land Management, 1300 Airport Lane, North Bend, Oregon 97459 (541) 756-0100.

SUPPLEMENTARY INFORMATION: Authority for the establishment of these proposed Supplementary Rules for the Sixes River Recreation Area and Prohibited Acts is contained in 43 CFR, Chapter II, subpart 8360-3 and 8365.1-6. Person or persons violating or failing to comply with these rules may be subject to penalties provided for in 43 CFR 8360.0-7 and 43 CFR 9262.1, which include a fine not to exceed \$1000.00 and/or imprisonment not to exceed twelve (12) months.

Dated: May 6, 1997.
