Center of Excellence for Sustainable Development; Notice of Program Interest, Building a Sustainable Future: Small Grant Program for Capacity Building Activities in Empowerment Zones and Enterprise Communities

AGENCY: Department of Energy.

ACTION: Notice of program interest (notice).

SUMMARY: On December 21, 1994, 72 urban and 33 rural communities were designated as Empowerment Zones or Enterprise Communities by the Clinton Administration as part of a program to assist impoverished communities (this includes Supplemental Empowerment Zones and Enhanced Enterprise Communities, all referred to as EZ/EC's in this document). In applying for EZ/EC designation, communities had to address four key principles: Economic Opportunity, Sustainable Community Development, Community-Based Partnerships, and Strategic Vision for Change. The Department of Energy's Office of Energy Efficiency and Renewable Energy, in conjunction with its Center of Excellence for Sustainable Development (CESD), will consider proposals from interested EZ/EC's to help fund capacity building projects and/or activities specific to the Sustainable Community Development objectives of their implementation efforts. Funding can be used to assist communities in pursuing capacity building projects or activities such as economic renewal training, design charrettes, industrial ecology training, visioning exercises, land-use planning techniques, and economic studies of the benefits of energy efficiency and renewable energy on jobs and the environment.
