Footnotes:

¹ The revised subpart O rule eliminates the refresher training requirement and the 60-day "window" time element, including the window for basic training. Under the old regulations, MMS received approximately 150 requests each year for exceptions, most of which were for departures to the "window." We anticipate that there will be very few requests for exceptions to the training requirement now that there is no "window" and only basic training is mandated.

² In 1996 training organizations submitted 4,498 rosters to MMS. The revised subpart O eliminates the requirement for refresher training and changes the timing for basic training. This will result in an estimated 30–40% reduction in mandatory training depending upon the training category with a corresponding reduction in reporting.

³ Rounded.
