## FEDERAL COMMUNICATIONS COMMISSION

### Notice of Public Information Collections being Reviewed by the Federal Communications Commission

June 2, 1997.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Written comments should be submitted on or before July 9, 1997. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all comments to Judy Boley, Federal Communications Commissions, Room 234, 1919 M St., N.W., Washington, DC 20554 or via internet to jboley@fcc.gov.

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collections contact Judy Boley at 202-418-0214 or via internet at jboley@fcc.gov.

#### SUPPLEMENTARY INFORMATION:

*OMB Approval No.:* 3060-0108.

*Title:* Emergency Alert Systems—EAS Activation Report.

*Form No.:* FCC 201.

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business or other for-profit entities; not-for-profit institutions.

*Number of Respondents:* 14,000.

*Estimated Hour Per Response:* .034 (2 minutes).

*Frequency of Response:* On occasion reporting requirement.

*Estimated Total Annual Burden:* 476 hours.

*Needs and Uses:* The Emergency Broadcast System (EBS) has been changed to the Emergency Alert System (EAS). This change required that all EBS collections and forms be corrected to reflect the name change. The EAS Activation Report postcard was developed as part of the EAS planning program. The program is a tri-agency agreement between the FCC, NOAA National Weather Service, and the Federal Emergency Management Agency (FEMA). The information is needed to maintain accurate records and documentation of broadcast stations and cable systems in compliance with FCC rules, and to enhance and encourage participation in the national, state and local EAS. Any reduction in the frequency of this activity would result in a proportional loss of benefit and would cause a delay in the detection of EAS equipment failures that would cause the loss of national, state and local emergency messages to the public, which in turn, could cause the loss of life and property. In keeping with the objectives of the Paperwork Reduction Act, this collection can now be filed by electronic mail to EAS@fcc.gov.

*OMB Approval No.:* 3060-0318.

*Title:* Notification of Commencement of Service or of Additional or Modified Facilities.

*Form No.:* FCC 489.

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business or other for-profit entities.

*Number of Respondents:* 7,000.

*Estimated Hour Per Response:* 3.62 hours.

*Frequency of Response:* On occasion reporting requirement.

*Estimated Total Annual Burden:* 25,340 hours.

*Needs and Uses:* FCC Form 489 is a multi-purpose form used by commercial mobile radio service providers subject to 47 CFR Parts 22 and 24 to notify the Commission of commencement of service, satisfaction of construction requirements, additional transmitters, minor modifications to stations and for certain other miscellaneous purposes. In addition to the requirements specified on the form, applicants may be required to file exhibits and showings as specified by the applicable rule part. The requested information is used by Commission staff in carrying out its duties as set forth in Sections 308 and

309 of the Communications Act of 1934. Various sections in 47 CFR Parts 22 and 24 require submission of FCC Form 489. FCC Form 489 is filed by Public Mobile and Personal Communications Services licensees. The form is being revised to add a space for the licensee to provide an Internet/e-mail address and to request the licensee's Taxpayer Identification Number. The TIN is required to comply with the Debt Collection Improvement Act of 1996. A type of licensee "government entity" is also being added to the choices prior to the signature on the application. The burden reflects a decrease in the number of respondents from 10,000 to 7,000 and a decrease in total burden hours from 36,200 to 25,340 (3.62 hours per form). This is attributed to an adjustment and re-evaluation of receipts.
