

approval requirements in section 515 of the act. Because reclassification will reduce regulatory costs with respect to this device, it will impose no significant economic impact on any small entities, and it may permit small potential competitors to enter the marketplace by lowering their costs. The Commissioner of Food and Drugs therefore certifies that this proposed rule, if issued, will not have a significant economic impact on a substantial number of small entities. In addition, this proposed rule will not impose costs of \$100 million or more on either the private sector or State, local, and tribal governments in the aggregate, and therefore a summary statement of analysis under section 202(a) of the Unfunded Mandates Reform Act of 1995 is not required.

#### **XI. Comments**

#### **Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Approval of VOC and NO<sub>x</sub> RACT Determinations for Individual Sources**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania for the purpose of establishing volatile organic compound (VOC) and nitrogen oxides (NO<sub>x</sub>) reasonably available control technology (RACT) for five major sources located in Pennsylvania. In the Final Rules section of this **Federal Register**, EPA is approving the Commonwealth's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule and the accompanying technical support document. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. If adverse comments are received that do not pertain to all documents subject to this rulemaking action, those documents not affected by the adverse comments will be finalized in the manner described here. Only those documents that receive adverse comments will be withdrawn in the manner described here.

**DATES:** Comments must be received in writing by July 11, 1997.

#### **Approval and Promulgation of State Implementation Plans; Arizona—Maricopa County Ozone Nonattainment Area**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve a State Implementation Plan (SIP) revision submitted by the State of Arizona on April 29, 1997, establishing a summertime gasoline Reid Vapor Pressure (RVP) limit of 7.0 pounds per square inch (psi) for gasoline distributed in the Maricopa (Phoenix) ozone nonattainment area. Arizona has lowered the summertime RVP limit for this area to reduce emissions of volatile organic compounds (VOC) in accordance with the requirements of the

Clean Air Act, as amended in 1990 (CAA). Arizona's fuel requirement is not preempted by federal fuels requirements because EPA is proposing to find that the control measure is necessary for the Maricopa area to attain the national ambient air quality standards (NAAQS) for ozone and is proposing to approve the measure into the Arizona SIP.

In the final rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments on this proposed rule must be received in writing by July 11, 1997.

**ADDRESSES:** Written comments should be sent to the Region IX contact listed below. Copies of the SIP revision are available in the docket (#AZ-RVP-97) for this rulemaking, which is open for public inspection at the addresses below. **SUPPLEMENTARY INFORMATION:** The revision is being proposed for approval into the Arizona SIP in section 13 of Arizona House Bill 2001 that adds to Arizona Revised Statutes (ARS) section 41-2083(E) <sup>1</sup> (summertime fuel

requirement to limit RVP gasoline to 7.0 psi). This revision was submitted by the ADEQ to EPA on April 29, 1997.

On May 8, 1997, EPA found the April 29, 1997, SIP revision conformed to EPA's completeness criteria in 40 CFR Part 51, Appendix V and the **Federal Register** on August 26, 1991 (56 FR 42216).
