

exists for the period May 1, 1993 through April 30, 1994:

Manufacturer/exporter	Margin (percent)
Romania Rate .....	0.00

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. The Department will issue appraisement instructions directly to the Customs Service.

Furthermore, the following cash deposit requirements will be effective upon publication of these final results for all shipments of BBs and parts thereof from Romania entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) the cash deposit rate for TIE and for all other Romanian exporters will be zero percent; and (2) for non-Romanian exporters of BBs and parts thereof from Romania, the cash deposit rate will be the rate applicable to the Romanian supplier of that exporter. These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: May 27, 1997.

Included in this review are flat-rolled products of nonrectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "working after rolling")—for example, products which have been beveled or rounded at the edges. Excluded from this review is certain shadow mask steel, *i.e.*, aluminum-killed, cold-rolled steel coil that is open-coil annealed, has a carbon content of less than 0.002 percent, is of 0.003 to 0.012 inch in thickness, 15 to 30 inches in width, and has an ultra flat, isotropic surface. These HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The POR is August 1, 1994, through July 31, 1995. This review covers entries of certain cold-rolled carbon steel flat

products from the Netherlands by Hoogovens.

### Ministerial Errors in Final Results of Review

After reviewing Hoogovens' allegation of two ministerial errors in the Department's computer program for the final results of review for cold-rolled carbon steel flat products from the Netherlands, we agree that an "else" statement should be inserted in the computer programming after each line of adjustments to the reported further manufacturing costs for certain invoices. This point was also made by petitioners. Further, we agree with Hoogovens that we should not have included costs of repacking merchandise further manufactured in the United States in the calculation of foreign market value, since we included these costs in further manufacturing costs, which are deducted from U.S. price in the margin calculation.

We also agree with petitioners that in adjusting Hoogovens' reported further manufacturing costs, we inadvertently omitted port-to-plant movement expenses for the specific invoices referenced in the program. We further agree with petitioners that in calculating the net price for CEP transactions, we should have deducted total movement expenses instead of inland freight expenses only. For these amended final results we have made all of the above corrections.

### Amended Final Results of Review

As a result of our correction of ministerial errors, we have determined the margin to be:

Manufacturer/ exporter	Period of review	Margin (per- cent)
Hoogovens Staal B.V. ...	8/1/94-7/31/95	4.94

The Customs Service shall assess antidumping duties on all appropriate entries. Individual differences between U.S. price and normal value may vary from the percentage stated above. The Department will issue appraisal instructions concerning the respondent directly to the U.S. Customs Service.

Furthermore, the following deposit requirements will be effective for all

shipments of the subject merchandise, entered, or withdrawn from warehouse, for consumption on or after the publication date of these amended final results of administrative review, as provided for by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for Hoogovens will be the rate indicated above; (2) if the exporter is not a firm covered in this review, a prior review, or in the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (3) if neither the exporter nor the manufacturer is a firm covered in this or any previous review conducted by the Department, the cash deposit rate will be 19.32 percent, the "all-other" rate established in the amended final determination in the LTFV investment. See Amended Final Determination Pursuant to CIT Decision: Certain Cold-Rolled Carbon Steel Flat Products from the Netherlands, 61 F.R. 47871.

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice serves as the final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during these review periods. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification or conversion to judicial protective order is hereby requested. Failure to comply with the regulation and the terms of the APO is a sanctionable violation.

These amended final results of administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.28(c).

Dated: June 4, 1997.
