

The above-described parcel contains 0.19 acre in Tillamook County.

The parcel will not be offered for sale until at least 60 days after publication of this notice in the **Federal Register**. The fair market value of the parcel has not yet been determined. Anyone interested in knowing the values may request this information from the address shown below.

The above-described land is hereby segregated from appropriation under the public land laws, including the mining laws, but not from sale under the above-cited statute, for 270 days or until title transfer is completed or the segregation is terminated by publication in the **Federal Register**, whichever occurs first.

The parcel is difficult and uneconomic to manage as part of the public lands and is not suitable for management by another Federal department or agency. No significant resource values will be affected by this transfer. Because of the parcel's relatively small size, its best use is to merge it with the adjoining ownership. The parcel is subject to frequent tidewater overflow and a floodplain restriction on uses is also proposed. The sale is consistent with the Salem District Resource Management Plan and the public interest will be served by offering this parcel for sale.

The parcel is being offered only to Susi K. Trattner (fee owner of Tax Lot 2100, Map 2S 9 6). Use of the direct sale procedures authorized under 43 CFR 2711.3-3, will avoid an inappropriate land ownership pattern.

The terms, conditions, and reservations applicable to the sale are as follows:

1. Susi K. Trattner will be required to submit a deposit of either cash, bank draft, money order, or any combination thereof for not less than the appraised value of the parcel to be sold.

2. The mineral interests being offered for conveyance have no known mineral value. A bid will also constitute an application for conveyance of the mineral estate, in accordance with Section 209 of the Federal Land Policy and Management Act. Susi K. Trattner must include with her bid a nonrefundable \$50.00 filing fee for the conveyance of the mineral estate.

3. The conveyance document will be subject to:

a. All valid existing rights and reservations of record.

b. Rights-of-way for ditches or canals will be reserved to the United States under 43 U.S.C. 945.

c. A restrictive covenant running with the land limiting use to farming and ranching purposes.

Detailed information concerning the sale is available for review at the Salem District Office, 1717 Fabry Road SE, Salem, Oregon 97306 or at the Tillamook Resource Area Office, P.O. Box 404 (4610 Third Street), Tillamook, Oregon 97141.

For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments to the Tillamook Area Manager, Salem District Office, at the above address. Any adverse comments will be reviewed by the Salem District Manager, who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, this realty action will become the final determination of the Department of the Interior.

#### Notice of Inventory Completion for Native American Human Remains From Hawaii in the Possession of the Springfield Science Museum, Springfield, MA

**Editorial Note:** This document was inadvertently omitted from the issue of Wednesday, June 11, 1997.

**AGENCY:** National Park Service

**ACTION:** Notice

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003 (d), of the completion of an inventory of human remains in the possession of the Springfield Science Museum, Springfield, MA.

A detailed assessment of the human remains was made by Springfield Science Museum professional staff in consultation with representatives of Hui Malama I Na Kupuna 'O Hawai'i Nei and the Office of Hawaiian Affairs.

Before 1917 (possibly 1898), human remains representing one individual were donated to the Springfield Science Museum by an unknown person. No known individuals were identified. No associated funerary objects are present.

Morphological evidence indicates this individual is Native Hawaiian based on cranial appearance. This individual was most likely brought back to Springfield, MA, by a whaler or sailor who visited the Hawaiian Islands, then known as the Sandwich Islands. The cranium is labeled "Sandwich Islands."

Consultation evidence provided by representatives of Hui Malama I Na Kupuna 'O Hawai'i Nei indicate that shoreline sand dunes, caves, and cliff caves were the locations of exclusively Native Hawaiian burials into the early historic period, and locations easily accessible to whalers and sailors of the period.

Based on the above mentioned information, officials of the Springfield Science Museum have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Lastly, officials of the Springfield Science Museum have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and Hui Malama I Na Kupuna 'O Hawai'i Nei.

This notice has been sent to officials of Hui Malama I Na Kupuna 'O Hawai'i

Nei and the Office of Hawaiian Affairs. Representatives of any other Indian tribe or Native Hawaiian organization that believes itself to be culturally affiliated with these human remains should contact John Pretola, Curator of Anthropology, Springfield Science Museum, 236 State Street, Springfield, MA 01103, telephone (413) 263-6875, ext. 320, before July 14, 1997.

Repatriation of the human remains to Hui Malama I Na Kupuna 'O Hawai'i Nei may begin after that date if no additional claimants come forward.

Dated: June 2, 1997.

## DEPARTMENT OF JUSTICE

### Notice of Lodging of Consent Decree Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act

Notice is hereby given that a proposed consent decree in *United States v. Allied Signal, Inc.*, Civil Action No. TH 97 154 CTF, was lodged on May 28, 1997, with the United States District Court for the Southern District of Indiana. The United States filed this action pursuant to Sections 106 and 107 of the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. §§ 9606 and 9607, to secure the performance of a remedial action and to recover past and future response costs incurred at or in connection with the Prestolite Battery Site in Vincennes, Indiana. The Consent Decree requires defendant Allied Signal to perform the remedial action for the site selected by the United States Environmental Protection Agency in a December, 1994 Record of Decision; to reimburse the United States \$950,000 for response costs incurred between March 31, 1993, and January 31, 1996; and to reimburse the United States for all future response costs incurred in connection with the Prestolite Site. The remedial action selected by EPA provides for natural attenuation of the contaminants in groundwater beneath the site, institutional controls to prevent access to the contamination, and short and long-term monitoring of the contamination.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decrees. Comments should be
