Needs and Uses: The enclosed *Third Report and Order (Third R&O)* adopts rules to govern the future operation and licensing of the 220-222 MHz band (220 MHz service). However, as with any licensing and operational plan for a radio service, a certain number of regulatory burdens are necessary. The various information reporting and verification requirements, and the requirement that licensees coordinate and provide written consent, concurrence or agreement with other licensees will be used by the Commission to verify licensee compliance with Commission rules and regulation and to ensure that licensees continue to fulfill their statutory responsibilities in accordance with the Communications Act of 1934. Such information has been used in the past and will continue to be used to minimize interference, verify that applicants are legally, technically, and financially qualified to hold licenses,

and to determine compliance with Commission Rules.

The burden estimates provided in this notice differ from the estimates provided in the **Federal Register** summary of the Third R&O 62 FR 15978, April 3, 1997. In the submission the commission reestimated the burdens to account for respondents hiring consultant engineers, and clarified some of the requirements.

Frequency of Response: On occasion reporting requirement.

Needs and Uses: FCC Rules require that applicants submit a transmittal sheet, FCC Form 464, in addition to other filing requirements pursuant to 47 CFR 22. The form is being revised to add a space for applicant's Internet or e-mail address and to add a space to collect Taxpayer Identification Number as required by the Debt Collection Improvement Act of 1966.

The Commission has re-evaluated its receipts of this form which attributes to a significant decrease in the number of respondents from 20,000 to 49 and a decrease in the total annual burden from 34,320 hours to 8 hours.
