#### Pure Magnesium From the People's Republic of China: Notice of Extension of Time Limit for New Shipper Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce

**EFFECTIVE DATE:** June 20, 1997.

**FOR FURTHER INFORMATION CONTACT:** Everett Kelly or Ellen Grebasch, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-4194 or (202) 482-3773, respectively.

#### Summary

The Department of Commerce (the Department) is extending the time limit for the preliminary results of the new shipper review of the antidumping duty order on pure magnesium from the People's Republic of China. The period of review is May 1, 1996, through October 31, 1996. This extension is made pursuant to the Tariff Act of 1930, as amended by the Uruguay Round Agreements Act (hereinafter, "the Act").

#### Postponement

On December 20, 1996, the Department initiated this new shipper review of the antidumping duty order on pure magnesium from the People's Republic of China (61 FR 69067). The current deadline for the preliminary results is June 18, 1997. Under the Act, the Department may extend the deadline for completion of a new shipper review if it determines that the

case is extraordinarily complicated. The Department finds that it is not practicable to complete the new shipper review of pure magnesium from the People's Republic of China within this time limit due to the complex nature of certain issues in this review which require further investigation. Among these issues is the ongoing verification of a reportedly canceled sale and a first time separate rates determination.

In accordance with section 751(a)(2)(B)(iv) of the Act, the Department will extend the time for completion for the preliminary results of this new shipper review to October 16, 1997. Accordingly, we will issue the final results within 90 days after notice of the preliminary results is published in the **Federal Register**.

**SUPPLEMENTARY INFORMATION:** On April 30, 1997, notice was published in the **Federal Register** (62 FR 23435) that an amendment of permit No. 987, issued

March 1, 1996 (61 FR 9438), had been requested by the above-named individual. The requested amendment has been granted under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the provisions of §§ 216.33(d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), and the Endangered Species Act (ESA) of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the Regulations Governing the Taking, Importing, and Exporting of Endangered Fish and Wildlife (50 CFR part 222).

Permit No. 987 authorizes the permit holder to take (*i.e.*, harass) up to 200 humpback whales (*Megaptera novaeangliae*) in the course of behavioral and photo-identification studies and biopsy sampling, in the waters around the main Hawaiian Islands over a 2-year period. The permit has been amended to authorize: the observation of up to 200 humpback whales annually in Hawaii and Alaska waters by the use of remote cameras to (1) observe the activities of individual whales, and (2) to determine if images can be obtained that will allow the length measurement of specific whales; and the observation of up to 1000 humpback whales annually in Hawaii and Alaska waters through fixed wing and helicopter flights to measure the length of whales through photogrammetry for the purpose of age estimation and to observe (video/film) behavior patterns.

We believe that this amended Permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the endangered species, which is the subject of the request; and (3) is consistent with the purposes and policies set forth in Section 2 of the ESA. We do not anticipate any adverse impacts to the affected population or the ecosystem as a result of the activities for which approval would be granted.
