Title, Associated Form, and OMB

Number: Central Contractor Registration, 0704–XXXX.

Needs and uses: The information collection requirement provides for a single face to industry through a single point of entry for contractors wishing to do business with the Department of Defense. This central registry will be used to provide contractor financial and business information to automated system used by the contracting and business communities. As activities transition to use of this registry, it will eliminate the need to submit Solicitation Mailing List Applications (SF129s) and electronic funds transfer information repeatedly to multiple DoD activities. Registration is available via the world wide web (<http://www.acq.osd.mil/ec>) and through DoD certified Value Added Networks (VANs). A registration workbook is available from this site. Review and completion of the workbook before attempting to register will ensure that all necessary information is available. Registration will generally be activated within seven to ten days of submission. Upon activation, contractors will receive written notice followed shortly thereafter by a Trading Partner Identification Number (TPIN). Contractors may also use the web site to inquire regarding registration status. Contractors who do not have access to the world wide web can contact their regional Electronic Commerce Resource Center or Procurement Technical Assistance Center for assistance. A list

can be obtained by calling the Electronic Commerce Information Center at 1-800-334-3414, 8 a.m. to 8 p.m. Eastern time, Monday through Friday, except federal holidays.

Affected Public: Business or other for-profit; not-for-profit institutions; federal government.

Annual Burden Hours: 1 hour per respondent.

Number of Respondents: 300,000.

Responses to Respondent: 1.

Average Burden Per Response: 1 hour.

Frequency: Government contractors, estimated at 300,000 currently, will register once initially. On an annual basis the contractor will be required to certify their registration information in CCR.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Respondents are contractors wishing to do business with the Department of Defense who provide numerous products and services. These vendors are currently required to submit a completed Solicitation Mailing List Application (SF129) to each buying activity with which they wish to do business. In addition, a significant percentage of this data is required in solicitation responses as certification and representation of the contractors size and status. Each completed form is entered into a local data base and the hard copy SF129 is manually filed. The current redundant manual process is labor intensive resulting in high error rate and inconsistent data. A central

registration system eliminates the redundancy of the governments information as well as the duplication of efforts on the part of the contractor.
