#### SUPPLEMENTARY INFORMATION:

##### Summary of Information Collection

Respondents are contractors wishing to do business with the Department of Defense who provide numerous products and services. These vendors are currently required to submit a completed Solicitation Mailing List Application (SF129) to each buying activity with which they wish to do business. In addition, a significant percentage of this data is required in solicitation responses as certification and representation of the contractors size and status. Each completed form is entered into a local data base and the hard copy SF129 is manually filed. The current redundant manual process is labor intensive resulting in high error rate and inconsistent data. A central

registration system eliminates the redundancy of the governments information as well as the duplication of efforts on the part of the contractor.
