[Docket No. CP97-575-000]

#### **Southern Natural Gas Company; Notice of Request Under Blanket Authorization**

June 20, 1997.

Take notice that on June 12, 1997, Southern Natural Gas Company (Southern), P.O. Box 2563, Birmingham, Alabama 35202-2563, filed in Docket No. CP97-575-000 a request pursuant to Sections 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.211) for authorization to construct, install and operate a meter station for delivery of gas to Oxy USA Inc. (Oxy) for use as gas-lift gas on its offshore production platform in Main Pass Block 311A, Offshore, Louisiana, under the blanket certificate issued in Docket No. CP82-406-000, pursuant to Section 7(c) of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Southern proposes to install a 2-inch meter station. According to Southern, Oxy has agreed to reimburse Southern for the total, actual cost of the meter station for the delivery of gas. Southern estimates the cost to be \$57,900. Southern states that it will provide the transportation service to the meter station pursuant to the terms and conditions of the Service Agreement

between Southern and Oxy dated November 1, 1993, under Southern's Rate Schedule IT. Southern asserts that Oxy has plans to use on average 400 Mcf/d and 146,000 Mcf annually on an interruptible basis at the meter station for its gas-lift operations.

Southern states that the delivery of gas to Oxy is subject to the availability of excess capacity in its pipeline facilities and the operating conditions of its system. Southern claims that the proposal will have no significant impact on its peak day capabilities. Southern states that it will continue to own and operate the meter station as part of its pipeline system. Southern notes that the proposed construction, installation and operation of the existing facilities is allowed by Southern's tariff. Additionally, Southern contends that it has the capacity to accomplish the deliveries proposed by the installation without detriment or disadvantage to its other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
