

discussion and voting at a meeting of the ISSC, usually its annual meeting. Revisions that have been agreed upon by the ISSC are forwarded to FDA for inclusion in the Model Ordinance. The agency may reject any revisions that conflict with Federal laws, regulations, or policies.

This year's meeting of the ISSC will take place in Sturbridge, MA, July 12 through 18, 1997. The ISSC and its meeting are open to all persons interested in fostering controls that will assure sources of safe and sanitary shellfish.

## II. FDA's Guidance Documents Policy

As stated previously, although it is the States that use the Model Ordinance, this document is a Federal guideline. It is thus subject to FDA's policy regarding the issuance of guidance documents. It is FDA policy that the public be afforded the opportunity to comment on guidance documents, either before implementation or upon issuance, depending on whether the guidance document is classified as Level 1 or Level 2 guidance (see 62 FR 8961 at 8965).

Guidance documents are typically developed within the agency and lend themselves to a relatively simple notice and comment procedure. However, the annual meeting of the ISSC has, in the past, provided an essential forum for the development of revisions to the Manual of Operations. FDA expects this to continue to be the case with the Model Ordinance. Given the Federal-State cooperative nature of the program, FDA strongly believes that the participatory process that occurs at this meeting serves many of the purposes and principles set forth in the agency's guidance documents policy. Moreover, FDA expects to publish a notice of availability of the Model Ordinance after the work of the July ISSC meeting is complete.

FDA is also advising the public that the issues to be discussed at the July ISSC meeting are now available and may be obtained from the Executive Director of the ISSC at the address provided above. Information on how to attend the meeting may also be obtained from the Executive Director.
