

release foggers for indoor residential and nonresidential (except greenhouse) use; coating products intended for large indoor surface areas such as floors, walls, and ceilings inside residential dwellings, offices, schools, or health care institutions including, but not limited to, houses, apartments, nursing homes and patient rooms in hospitals. Pets and Domestic Animals (Indoor): Animal dips, sprays, shampoos, dusts. Aquatic Uses (Aquatic Food Crop) (Aquatic Non-Food): Any aquatic use, including mosquito larvicide. Pest Control Indoors or Outdoors (Domestic Indoor or Outdoor): Paint additives; application in sewer manholes. The 30-day comment period announced in referenced FR notice for these registrations still applies.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-66241; FRL 5721-3]

Notice of Receipt of Requests to Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel certain pesticide registrations.

DATES: Unless a request is withdrawn by December 24, 1997, orders will be issued cancelling all of these registrations.

FOR FURTHER INFORMATION CONTACT: By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier, delivery, telephone number and e-mail: Rm. 216, Crystal Mall #2, 1921 Jefferson

Davis Highway, Arlington, VA, (703) 305-5761; e-mail: hollins.james@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, provides that a pesticide registrant may, at any time, request that any of its pesticide registrations be cancelled. The Act further provides that EPA must publish a notice of receipt of any such request in the **Federal Register** before acting on the request.

II. Intent to Cancel

This Notice announces receipt by the Agency of requests to cancel some 61 pesticide products registered under section 3 or 24(c) of FIFRA. These registrations are listed in sequence by registration number (or company number and 24(c) number) in the following Table 1.

TABLE 1. — REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Product Name	Chemical Name
000100 OR-95-0018	Tilt Fungicide	1-((2-(2,4-Dichlorophenyl)-4-propyl-1,3-dioxolan-2-yl)methyl)-1 <i>H</i> -1,2,4-triazole
000352 TX-92-0011	Dupont Lannate LV Insecticide	<i>S</i> -Methyl <i>N</i> -((methylcarbamoyl)oxy)thioacetimidate

III. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above,

postmarked before December 24, 1997. This written withdrawal of the request for cancellation will apply only to the applicable 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation

and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

IV. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1 year after the date the cancellation request was received. This policy is in accordance with the Agency's statement of policy as prescribed in **Federal Register** (56 FR 29362) June 26, 1991; [FRL 3846-4]. Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product(s). Exceptions to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in Special Review actions, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-50830; FRL-5727-4]

Receipt of an Application for an Experimental Use Permit; Genetically Engineered Microbial Pesticide

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces receipt of an application (EUP No. 524-EUP-IT) from Monsanto Company requesting an experimental use permit for a genetically engineered microbial pesticide. The Agency has determined that the application may be of regional and national significance. Therefore, in accordance with 40 CFR 172.11(a), the Agency is soliciting public comments on this application.

DATES: Written comments must be received on or before July 28, 1997.

ADDRESSES: By mail, submit written comments to: Public Information and Records Integrity Branch, Information and Resources Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Highway, Arlington, VA.

Comments and data may also be submitted electronically by following the instructions under Unit II. of this document. No Confidential Business Information (CBI) should be submitted through e-mail.

FOR FURTHER INFORMATION CONTACT: Linda Hollis, PM 90, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location, telephone number, and e-mail address: 5th floor CS #1, 2800 Crystal Drive, Arlington, VA, Telephone: (703) 308-8733, e-mail: hollis.linda@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

EPA has received an application from Monsanto Company of St. Louis, Missouri for an experimental use permit (EUP). This EUP application is EUP No. 524-EUP-IT. The proposed experiment involves the field testing of the transgenic plant pesticide - Potato Leaf Roll Virus Replicase as expressed in potatoes. Field testing will include the use of no less than 3,480 acres. All work performed will be on a non-crop destruct basis. A request for an exemption from the requirement of a tolerance for Potato Leaf Roll Virus Replicase protein in or on all raw agricultural commodities is being requested with this application.

Testing will be conducted in the following states: California, Colorado, Florida, Idaho, Maine, Minnesota, Montana, North Dakota, Nebraska, Oregon, Washington, and Wisconsin. The purpose of this EUP is to test the agronomic performance, such as true to variety type, of the PLRV resistant potato lines which contain the replicase

gene from PLRV. Testing will begin upon approval of the EUP. The plants will be grown using standard agronomic practices for U.S. potato production to evaluate whether the transgenic plants exhibit acceptable agronomic traits which are known for the non-transformed parental variety. The field will contain between 0.1 and 20 acres of transgenic potatoes, depending on the land constraints at each test site. The transgenic field plots will be separated from other commercial potato plots by at least 3 meters to prevent mechanical mixing of tubers during harvest. All potatoes will be harvested either by hand or with field plot harvesters.

After harvest, the field plots will be monitored for 1 year for volunteer plants. Any volunteer plants will be destroyed by roughing or herbicide treatment. This is common practice in potato production to reduce the spread of virus from infected volunteer plants. Tubers will be shipped immediately after harvest or may be stored at approved sites for up to 12 months.

Tubers grown for agronomic evaluation will be sold to processors. Seeds will be saved for commercial production.

Following the review of the Monsanto application and any comments received in response to this notice, EPA will decide whether to issue or deny the EUP request for this EUP program, and if issued, the conditions under which it is to be conducted. Any issuance of an EUP will be announced in the **Federal Register**.

II. Public Record

The official record for this notice, as well as the public version, has been established for this notice under docket control number "OPP-50830" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The official record is located at the address in **ADDRESSES** at the beginning of this document.

Electronic comments can be sent directly to EPA at:
opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comment and data will also be accepted on disks in Wordperfect 5.1 file format or ASCII file format. All comments and data in
