**Safety Zone Regulations; Oregon Food Bank Blues Festival Fireworks Display, Willamette River, Portland, OR**

**AGENCY:** Coast Guard, DOT.

**ACTION:** Temporary final rule.

**SUMMARY:** The Coast Guard is establishing a safety zone for the Oregon Bank Blues Festival fireworks display. The event will be held on Friday, July 4, 1997, from 9:45 p.m. (PDT) to 11 p.m. (PDT). The safety zone will be located on the Willamette River between the Hawthorne Bridge (river mile 13.1) and the Marquam Bridge (river mile 13.5), Portland, Oregon. The Coast Guard, through this action, intends to protect persons, facilities, and vessels from safety hazards associated with the fireworks display. Entry into this safety zone is prohibited unless authorized by the Captain of the Port.

**EFFECTIVE DATE:** This rule is effective on July 4, 1997, at 9:45 p.m. (PDT) and terminates on July 4, 1997 at 11 p.m. (PDT).

**FOR FURTHER INFORMATION CONTACT:**

**SUPPLEMENTARY INFORMATION:****Regulatory History**

Pursuant to 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective less than 30 days after **Federal Register** publication. Publishing a NPRM and delaying its effective date would be contrary to the public interest since immediate action is necessary to ensure the safety of structures and vessels operating in the area of the fireworks display. Due to the complex planning and coordination involved, the event sponsor, Oregon Food Bank Blues Festival and Fuller Productions, were unable to provide the Coast Guard with notice of the final details until 30 days prior to the date of the event. Therefore, sufficient time was not available to publish a proposed rule in advance of the event or to provide a delayed effective date. Following normal rulemaking procedures in this case would be impracticable.

**Background and Purpose**

The event requiring this regulation is an Oregon Food Bank Blues Festival fireworks display to be held on the Willamette River in Portland, Oregon. The fireworks display is scheduled to begin on July 4, 1997, at 9:45 p.m. (PDT). This event may result in a number of vessels congregating near the fireworks launching barge. To promote the safety of both the spectators and participants, a safety zone is being established on the waters of the Willamette River around the fireworks launching barge, and entry into this safety zone is prohibited unless authorized by the Captain of the Port. This action is necessary due to the possibility of debris and unexploded fireworks falling into the Willamette River in the vicinity of the launching barge. This safety zone will be enforced by representatives of the Captain of the Port, Portland, Oregon. The Captain of the Port may be assisted by other federal, state, and local agencies.

**Regulatory Evaluation**

This temporary final rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has been exempted from review by the Office of Management and Budget under that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040, February 26, 1979). The Coast Guard expects the economic impact of this proposal to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary. This expectation is based on the fact that the entry into the safety zone will only be restricted for one hour on the day of the event, and that less than half a mile of the waterway will be restricted. The entities most likely to be affected by this action are commercial ship, and tug and barge operators on the Willamette River. Most of these entities are aware of the fireworks display and the safety zone, and they can schedule their transits accordingly. If safe to do so, the representative of the Captain of the Port assigned to enforce this safety zone may authorize commercial vessels to pass through the safety zone on a case-by-case basis.

**Small Entities**

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider whether this final rule will have a significant economic impact

on a substantial number of small entities. "Small entities" include independently owned and operated small businesses that are not dominant in their field and that otherwise qualify as "small business concerns" under section 3 of the Small Business Act (15 U.S.C. 632). For the reasons outlined in the Regulatory Evaluation above, the Coast Guard expects the impact of this final rule to be minimal on all entities. Therefore, the Coast Guard certifies under 5 U.S.C. 605(b) that this final rule will not have a significant economic impact on a substantial number of small entities.

#### Collection of Information

This final rule contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*)

#### Federalism

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the proposed rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

#### Environment Assessment

The Coast Guard has considered the environmental impact of this final rule and has concluded that, under section 2.B.2.c of Commandant Instruction M16475.1B, it is categorically excluded from further environmental documentation. A Categorical Exclusion Determination will be made available in the rulemaking docket.
