### Foreign-Trade Zones Board

[Docket 57-97]

#### **Foreign-Trade Zone No. 77—Memphis, TN Area; Application for Subzone Status; Komatsu America International Company (Construction Equipment Parts), Ripley, TN**

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City of Memphis, Tennessee, grantee of FTZ 77, requesting special-purpose subzone status for the construction and mining equipment parts distribution facility of Komatsu America International Company Inc., located in Ripley, Tennessee. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on June 30, 1997.

The Komatsu facility (640,000 sq. ft. on 54 acres) is located on U.S. Highway 51 at 108 N. Industrial Drive, Ripley, Tennessee, some 50 miles north of Memphis. The facility (330 employees) is used for storage, inspection, packaging and distribution of a wide variety of parts and components for construction and mining equipment, such as engine parts, equipment, vehicle parts, electrical/electronic components and instruments. About half of the parts are sourced from abroad and over 25 percent are exported. Plant activity also includes the occasional packaging or assembly of parts into kits or subassemblies, but the applicant has indicated that any such activity conducted under FTZ procedures would not result in a lowering of tariff rates.

Zone procedures would exempt Komatsu from Customs duty payments on foreign parts that are reexported. On its domestic sales, the company would be able to defer duty payments until merchandise is shipped from the plant. The application indicates that the savings from zone procedures would

help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is September 8, 1997. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to September 22, 1997).

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations:

It was formally filed on June 27, 1997.

FTZ 168 was approved on November 1, 1990 (Board Order 491, 55 FR 46974, 11/8/90) and has been expanded four times (B.O.'s 603, 873, 885, 886). The zone currently consists of six sites in the Dallas/Fort Worth, Texas, area:

*Site 6* (168 acres) Frankford Trade Center, I-35E and Frankford Road, Carrollton.

The applicant is now requesting authority to expand the zone to include two industrial parks (642 acres total) located in Gainesville (Cooke County), Texas, some 50 miles north of the Dallas/Fort Worth Customs port of entry: *Proposed Site 7* (185 acres) Corporate Square Industrial Park/Armco/National Industrial Center, 3333 North I.H. 35; and, *Proposed Site 8* (457 acres) Gainesville Municipal Airport, 2300 Bonnavilla Drive. The sites are owned by the City of Gainesville, though certain parcels have been sold to individual businesses. Zone services will be provided by the FTZ Operating Company of Texas.

No specific manufacturing requests are being made at this time. Such requests would be made to the Board on a case-by case basis.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. #### **Furfuryl Alcohol From the Republic of South Africa; Preliminary Results of Antidumping Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of preliminary results of antidumping duty administrative review.

**SUMMARY:** In response to requests by the respondent, Illovo Sugar Ltd. (ISL), and the petitioner, QO Chemicals Inc., the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on furfuryl alcohol from the Republic of South Africa (South Africa). The review covers one manufacturer/exporter of the subject merchandise to the United States. The period of review (POR) is December 16, 1994, through May 31, 1996.

We have preliminarily found that sales have been made below normal value (NV). If these preliminary results are adopted in our final results of administrative review, we will instruct U.S. Customs to assess antidumping duties equal to the difference between the constructed export price (CEP) and the normal value (NV). Interested parties are invited to comment on these preliminary results. Parties who submit case briefs in this proceeding should provide a summary of the arguments not to exceed five pages and a table of statutes, regulations, and cases cited.

**EFFECTIVE DATE:** July 8, 1997.

#### **FOR FURTHER INFORMATION CONTACT:**

Michelle Frederick or Scott Oudkirk, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, Washington, D.C. 20230; telephone: (202) 482-0186 or 482-2336, respectively.

#### **SUPPLEMENTARY INFORMATION:**

#### **The Applicable Statute and Regulations**

Unless otherwise indicated, all citations to the Tariff Act of 1930, as

amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreement Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the provisions codified at 19 CFR part 353, as of April 1, 1996.

#### **Background**

On June 21, 1995, the Department published in the **Federal Register** (60 FR 32302) the antidumping duty order on furfuryl alcohol from South Africa. On June 6, 1996, the Department published a notice of "Opportunity to Request an Administrative Review" (61 FR 28840) of this antidumping duty order for the period December 16, 1994, through May 31, 1996. On June 10, 1996, ISL requested that the Department conduct an administrative review of its sales of subject merchandise during the POR. On June 28, 1996, Petitioner also requested an administrative review of ISL's POR sales. We issued a questionnaire to ISL on July 23, 1996, followed by supplemental questionnaires on March 14, 1997, and May 9, 1997. We published a notice of postponement of the deadline for the preliminary results on January 24, 1997 (62 FR 3660) due to complex legal and methodological issues.

#### **Scope of Review**

The merchandise covered by this order is furfuryl alcohol (C<sub>4</sub>H<sub>3</sub>OCH<sub>2</sub>OH). Furfuryl alcohol is a primary alcohol, and is colorless or pale yellow in appearance. It is used in the manufacture of resins and as a wetting agent and solvent for coating resins, nitrocellulose, cellulose acetate, and other soluble dyes. The product subject to this order is classifiable under subheading 2932.13.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

#### **Constructed Export Price**

For sales to the United States, we used CEP as defined in section 772(b) of the Act, because we determined that ISL is affiliated with its exclusive U.S. agent, Harborchem, and because the subject merchandise was sold to unaffiliated U.S. purchasers after the date of importation. Our finding that ISL and Harborchem are affiliated is consistent with our finding in the Less Than Fair Value (LTFV) Investigation. See Final Determination of Sales at Less Than Fair Value: Furfuryl Alcohol from
