FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

July 2, 1997.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. OMB Control No.: 3060-0770.

Expiration Date: 06/30/2000.

Title: Price Cap Performance Review for Local Exchange Carriers—CC Docket No. 94-1.

Form No.: N/A.

Estimated Annual Burden: 13 respondents; 10 hours per response (avg.); 130 total annual burden hours for all collections.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion.

Description: In the *Third Report and Order* in CC Docket 94-1, the Commission is modifying its filing requirement for incumbent price cap Local Exchange Carriers (LECs) who propose to offer new switched access services. We no longer require an incumbent LEC to introduce a new service by filing a waiver under Part 69 of the Commission's rules. Instead, incumbent LECs will be able to file a

petition for the new service based on a public interest standard. After the first incumbent LEC has satisfied the public interest requirement for establishing new rate elements for a new switched access service, other incumbent price cap LECs can file petitions seeking authority to introduce identical rate elements for identical new services, and their petitions will be reviewed within ten days. The Commission also eliminates the lower service band indices. By doing so, an incumbent price cap LEC no longer has to file a waiver to set its rates below the lower service band indices, but may instead simply adjust its rates downward. The information collected would be submitted to the Commission by an incumbent LEC for use in determining whether it is in the public interest for the incumbent LEC to offer a proposed new switched access service. Your response is required to obtain or retain benefits.
