

192-000, an application pursuant to Section 7 of the Natural Gas Act, as amended, and § 284.224 of the Commission's Regulations, for a limited-jurisdiction blanket certificate of public convenience and necessity authorizing NYSEG to provide firm and interruptible storage services at market-based rates at its Seneca Lake storage field located in Schuyler County, New York, all as more fully set forth in the application which is on file with the Commission and open to public inspection.¹

NYSEG states that the storage it intends to perform in interstate commerce will be made possible through the use of compression already installed at its Seneca Lake storage field, combined with two additional compressors, rated at 2,587 horsepower each, which it plans to install. NYSEG avers that it filed an application on December 16, 1996 with the State of New York Public Service Commission seeking authority to install these additional compressor units. According to NYSEG, the additional compression will enable NYSEG to: (1) Inject up to 72.5 MMcfd of natural gas into storage during a 20-day injection cycle; and (2) deliver up to 145 MMcfd of natural gas from storage during the 10-day withdrawal period.

As part of its request, NYSEG asks the Commission to make a determination under § 284.123(b)(2) of the regulations that the rates and charges proposed in the application are fair and equitable.

Any person desiring to be heard or make any protest with reference to said application should on or before February 7, 1997, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the

Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment and grant of certificate are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for NYSEG to appear or be represented at the hearing.

Linwood A. Watson, Jr.,

Acting Secretary.

[Docket No. CP93-98-002]

PNM Gas Services, a Division of Public Service Company of New Mexico; Notice of Redesignation of Proceeding

January 17, 1997.

Take notice that on November 25, 1996, PNM Gas Services filed an amendment pursuant to section 3 of the NGA and Part 153 of the Commission's Regulations under the NGA, seeking to amend the Presidential Permit issued August 6, 1993,¹ to reflect the new name of the company holding the Presidential Permit. Specifically, the Presidential Permit was issued in Docket No. CP93-98-000 to Gas Company of New Mexico, a Division of Public Service Company of New Mexico (Gas Company of New Mexico). The amendment sought herein would simply reflect the name change from Gas Company of New Mexico to PNM Gas Services. PNM Gas Services states that the change reflects only a change in the name of the division conducting business; no change of ownership has occurred.

On December 5, 1996, the Commission issued a Notice of Amendment. The notice was published in the Federal Register on December 12, 1996 (61 *Fed. Reg.* 65038). No adverse comments were received prior to the December 26, 1996 response date. The redesignation is unopposed. Accordingly, pursuant to section

375.302(r) of the Commission's Rules and Regulations, notice is hereby given that this proceeding is being redesignated to reflect the permit holder's new name.

Linwood A. Watson, Jr.,

Acting Secretary.

[Project No. 10819-002 Idaho]

Idaho Water Resources Board; Notice of Availability of Draft Environmental Assessment

January 17, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47897), the Office of Hydropower Licensing has reviewed the application for an original, major license for the Dworshak Small Hydroelectric Project No. 10819-002, located on the existing water conveyance system providing water from the Corps of Engineers' Dworshak dam to two fish hatcheries. The Dworshak dam is located on the North Fork Clearwater River in Clearwater County, Idaho. The Commission has prepared a Draft Environmental Assessment (DEA) for the project. The DEA contains the Commission staff's analysis of the potential future environmental impacts of the project and has concluded that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Copies of the DEA are available for review in the Public Reference Room, Room 2A, of the Commission's offices at 888 First Street, NE., Washington, DC 20426.

Any comments should be filed within 45 days from the date of this notice and should be addressed to Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. For further

information, contact Surender M. Yepuri, Environmental Coordinator, at (202) 219-2847.

k. *Description of Project:* The California Department of Water Resources, California, licensee for the Feather River Project, has filed the hatchery expansion plan required by the September 22, 1994 FERC Order. The hatchery expansion plan includes provisions for 2, 10ft x 200ft rearing ponds, a hatching/incubation facility and a UV treatment system to the existing Feather River Fish Hatchery. The expansion plan will allow space for grow-out of 390,000 fingerlings and reduce stress and disease occurring from the transport of fish to other hatchery facilities. A supplemental filing proposes further expansion of the 100ft long rearing ponds to 300ft to increase hatchery capacity to 720,000 fingerlings.
