NASA Form 456, Notice of Contract Costs Suspended and/or Disapproved. Prescribed in 1842.803(b)(2).

1853.245 Property (NASA Form 1018, Department of Defense Form 1419).

(a) *NASA Form 1018, NASA Property in the Custody of Contractors.* Prescribed in 1845.505-14. Instructions for form completion are in 1845.7101.

(b) DD Form 1419, DOD Industrial Plant Equipment Requisition. Prescribed in 1852.245-70. Instructions for form completion are in 1845.7102.

1853.246 Quality assurance (Department of Defense Forms 250 and 250c).

The following forms are prescribed in 1846.670. Instructions for form completion are in 1846.670:

(a) DD Form 250, Material Inspection and Receiving Report

(b) DD Form 250c, Material Inspection and Receiving Report-Continuation Sheet.

1853.249 Termination of contracts (NASA Forms 1412, 1413).

(a) *NASA Form 1412, Termination Authority.* Prescribed in 1849.101-71.

(b) *NASA Form 1413, Termination Docket Checklist.* Prescribed in 1849.105-70.

Subpart 1853.3—Illustrations of Forms**1853.300 Scope of subpart.**

This subpart contains illustrations of NASA forms and others forms used by NASA in acquisitions and not prescribed in the FAR.

1853.301 Standard forms.

This section illustrates standard forms (SFs) specified for use in acquisitions.

1853.303 Agency forms.

This section illustrates NASA and other agency forms specified for use in acquisitions. The other agency forms are arranged numerically by agency following the NASA forms.

Fisheries of the Northeastern United States; Scup Fishery; Commercial Quota Harvested for Massachusetts

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Commercial quota harvest.

SUMMARY: NMFS announces that the scup commercial quota for the 1997 Summer period (May 1, 1997 - October 31, 1997) available to the Commonwealth of Massachusetts has been harvested. Vessels issued a commercial Federal fisheries permit for the scup fishery may not land scup in Massachusetts for the remainder of the 1997 Summer period, unless additional quota becomes available through a transfer. Regulations governing the scup fishery require publication of this notification to advise the Commonwealth of Massachusetts that the quota allocated for the 1997 Summer period has been harvested and to advise vessel and dealer permit holders that no commercial quota is available for landing scup in Massachusetts for the remainder of the 1997 Summer period. **DATES:** Effective 0001 hrs, local time (l.t.) July 2, 1997, through 2400 hrs, l.t., October 31, 1997.

FOR FURTHER INFORMATION CONTACT: Lucy Helvenston, 508-281-9347.

SUPPLEMENTARY INFORMATION:

Regulations governing the scup fishery are found at 50 CFR part 648. Section 648.120(d) requires annual specification of a commercial quota that is allocated into two Winter periods: January-April (Winter I) and November-December (Winter II); and one Summer period: May-October (Summer)(62 FR 27978, May 22, 1997). The Winter periods are allocated coastwide among the states from Maine to North Carolina and the Summer period is allocated on a state-by-state basis from Maine to North Carolina. The process to set the annual commercial quota and the percent allocated to each state for the Summer period are described in § 648.120.

The total commercial quota for scup for the 1997 Summer period is 2,337,000 lb (1,060,045 kg) (62 FR 27978, May 22, 1997). The percent of the Summer period quota allocated to vessels landing scup in Massachusetts is

15.49120 percent, or 362,029 lb (164,214 kg). Section 648.120(d)(6) provides that any overages of the commercial quota for a Summer period landed in any state will be deducted from that state's quota for the following Summer period. Section 648.121(b) requires the Administrator, Northeast Region, NMFS (Regional Administrator), to monitor states' commercial quotas and to determine when a state's commercial quota is harvested. The Regional Administrator is further required to publish notification in the **Federal Register** advising a state and notifying Federal vessel and dealer permit holders that, effective upon a specific date, the state's commercial quota has been harvested and no commercial quota is available for landing scup in that state for the remainder of the Summer period. The Regional Administrator has determined, based on dealer reports and other available information, that the Commonwealth of Massachusetts's commercial quota for the 1997 Summer period has been harvested.

The regulations at § 648.4(b) provide that Federal permit holders must agree as a condition of the permit not to land scup in any state that the Regional Administrator has determined no longer has commercial quota available. Therefore, effective 0001 hrs, l.t., July 2, 1997, through 2400 hrs, l.t., October 31, 1997, further landings of scup in Massachusetts by vessels holding commercial Federal fisheries permits are prohibited for the remainder of the 1997 Summer period, unless additional quota becomes available through a transfer and is announced in the **Federal Register**. Federally permitted dealers are also advised that they may not purchase scup from federally permitted vessels that land in Massachusetts for the remainder of the 1997 Summer period, or until additional quota becomes available.

Fisheries of the Exclusive Economic Zone Off Alaska; Greenland Turbot in the Bering Sea Subarea of the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Greenland turbot in the Bering Sea subarea of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 1997 total allowable catch (TAC) of Greenland turbot in this area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), May 19, 1997, until 2400 hrs, A.l.t., December 31, 1997.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the BSAI exclusive economic zone is managed by NMFS according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Fishing by U.S. processors is governed by regulations implementing the FMP at subpart H of 50 CFR part 600 and 50 CFR part 679.

The initial TAC of Greenland turbot for the Bering Sea subarea of the BSAI was established by the Final 1997 Harvest Specifications of Groundfish for the BSAI (62 FR 7168, February 18, 1997) as 5,125 metric tons (mt). See § 679.20(c)(3)(iii). To date, NMFS has not apportioned to the initial TAC of Greenland turbot for the Bering Sea subarea (or Aleutian Islands subarea as appropriate) an amount from the BSAI reserve. Therefore, for purposes of this action, the initial TAC as specified in the final harvest specifications is the final TAC.

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), determined that the TAC of Greenland turbot specified for the Bering Sea subarea of the BSAI would be reached. Therefore, the Regional Administrator

established a directed fishing allowance of 3,325 mt, and set aside the remaining 1,800 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance was reached. Consequently, NMFS is prohibiting directed fishing for Greenland turbot in the Bering Sea subarea of the BSAI.

Maximum retainable bycatch amounts for applicable gear types may be found in the regulations at § 679.20(e) and (f).

This action responds to the best available information obtained from the fishery. It must be implemented in order to prevent overharvesting the 1997 TAC of Greenland turbot in the Bering Sea subarea of the BSAI. A delay in the effective date is impracticable and contrary to the public interest. The fleet has taken the 1997 TAC of Greenland turbot in the Bering Sea subarea. Further delay could result in overharvest, which would disrupt the FMP's objective of providing sufficient Greenland turbot as bycatch to support other anticipated groundfish fisheries. NMFS finds for good cause that the implementation of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived. The affected fishery was provided notice by news release of a closure 1200 hrs, A.l.t., May 19, 1997, until 2400, A.l.t., December 31, 1997.

Classification

This action is required by § 679.20 and is exempt from review under E.O. 12866.
