

were used in the numerator of the fraction used to allocate total profit in determining CEP profit. SKC maintains that the Department must account for these imputed expense in the calculation of total costs.

**Department's Position:** To derive the total costs of U.S. merchandise, we compute the unit cost of each observation in the U.S. data base by adding the cost of manufacturing, general and administrative expense, and net interest expense from the constructed value (CV) data base. We then multiply the unit cost by the quantity sold to derive the total cost of sales for each U.S. market transaction. To calculate total U.S. selling expenses we add all direct and indirect selling expenses and any further manufacturing costs incurred in the United States. We exclude from this calculation imputed amounts for credit expense and inventory carrying costs because in calculating the total cost of the U.S. merchandise, we included net interest expense from the CV data base. Thus, there is no need to include imputed interest amounts in the profit calculation since we have already accounted for actual interest in computing "actual profit" under section 772(f). When allocating a portion of the actual profit to each U.S. CEP sale, we will include imputed credit and inventory carrying costs as part of the total U.S. expenses allocation factor. This is consistent with section 772(f)(10) which defines the term "total U.S. expenses" as those described under section 772(d) (1) and (2).

#### Final Results of Review

As a result of our review, we determine that the following weighted-average margins exist:

Manufacturer/exporter	Period of review	Margin
SKC Limited	6/1/95-5/31/96	0.45
STC Corporation ....	6/1/95-5/31/96	0.37

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. Individual differences between export price and normal value may vary from the percentage stated above. The Department will issue appraisal instructions directly to the Customs Service.

Furthermore, the following deposit requirements will be effective upon publication of this notice of final results of review for all shipments of PET film from the Republic of Korea within the scope of the order entered, or withdrawn from warehouse, for

consumption on or after the publication date, as provided by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for the reviewed companies will be the rates listed above; (2) for previously reviewed or investigated companies not listed above, the rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) for all other producers and/or exporters of this merchandise, the cash deposit rate will be 21.50 percent, the "all others" rate established in the remand redetermination of the LTFV investigation, as explained below. These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

On May 20, 1996, pursuant to court remand, the Department recalculated the weighted-average dumping margins for the LTFV investigation. As a result of the recalculation, the Department established an "all others" rate of 21.50 percent. Final Determination on Remand Pursuant to Court Order, *E.I. Dupont de Nemours & Co., Inc. v. United States*, Court No. 91-07-00487, Slip Op. 96-56 (March 20, 1996). On February 5, 1997, the CIT affirmed the Department's remand redetermination of the LTFV investigation. *E.I. Dupont de Nemours & Co., Inc., v. United States*, Court No. 91-07-00487, Slip Op. 97-17 (February 5, 1997). Accordingly, 21.50 percent is the "all others" rate established in the LTFV investigation. Pursuant to the CIT decisions in *Floral Trade Council v. United States*, 822 F. Supp. 766 (CIT 1993) and *Federal Mogul Corporation v. United States*, 822 F. Supp. 782 (CIT 1993), this "all others" rate can only be changed through an administrative review.

This notice serves as a final reminder to importers of their responsibility under 19 CFR § 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and subsequent assessment of double antidumping duties.

#### Notification of Interested Parties

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR § 353.34(d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR § 353.22.

Dated: July 7, 1997.
