

comments on such schedules, as required by 44 U.S.C. 3303a(a).

**DATES:** Requests for copies must be received in writing on or before September 2, 1997. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

**ADDRESSES:** Address requests for single copies of schedules identified in this notice to the Civilian Appraisal Staff (NWRC), National Archives and Records Administration, 8601 Adelphi Road College Park, MD 20740-6001. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

**FOR FURTHER INFORMATION CONTACT:** Michael L. Miller, Director, Records Management Programs, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, telephone (301) 713-7110.

**SUPPLEMENTARY INFORMATION:** Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about

the disposition process will be furnished to each requester.

##### Renewal of Advisory Committee on Preservation

This notice is published in accordance with the provisions of Section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C., App.) and advises of the renewal of the National Archives and Records Administration's (NARA) Advisory Committee on Preservation for a two-year period. In accordance with the Office of Management and Budget (OMB) Circular A-135, OMB has approved the inclusion of the Advisory Committee on Preservation in NARA's ceiling of discretionary advisory committees. The Committee Management Secretariat, General Services Administration, has also concurred with the renewal of the

Advisory Committee on Preservation in correspondence dated May 16, 1997.

The Archivist of the United States has determined that the renewal of the Advisory Committee on Preservation is in the public interest due to the expertise and valuable advice the committee members provide on technical preservation issues affecting Federal records of all types of media. NARA uses the Committee's recommendations in NARA's implementation of strategies for preserving the permanently valuable records of the Federal Government.

**NUCLEAR REGULATORY COMMISSION**

[Docket Nos. 50-275 and 50-323]

**Pacific Gas and Electric Company; Diablo Canyon Nuclear Power Plant, Unit Nos. 1 and 2 Notice of Withdrawal of Application for Amendment to Facility Operating License**

The United States Nuclear Regulatory Commission (the Commission) has granted the request of Pacific Gas and Electric Company (the licensee) to withdraw its February 15, 1996, application for proposed amendment to Facility Operating License Nos. DPR-80 and DPR-82 for the Diablo Canyon

Nuclear Power Plant, Unit Nos. 1 and 2, located in San Luis Obispo County, California.

The proposed amendment would have revised Technical Specification (TS) 3.5.2, "ECCS Subsystems—Tavg Greater Than or Equal to 350°F," to change the allowed outage time (AOT) for any one safety injection (SI) pump from 72 hours to 7 days. The specific TS change proposed added a new footnote that increases the AOT for one SI pump from 72 hours to 7 days for performance of non-routine, emergent maintenance and required review by the Plant Staff Review Committee (PSRC), and Plant Manager approval prior to exceeding 72 hours.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on June 5, 1996 (61 FR 28619). However, by letter dated July 2, 1997, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated February 15, 1996, and the licensee's letter dated July 2, 1997, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and the local public document room located at California Polytechnic State University, Robert E. Kennedy Library, Government Documents and Maps Department, San Luis Obispo, California 93407.

Dated at Rockville, Maryland this 10th day of July 1997.

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 50-346]

**In the Matter of Toledo Edison Company, Centorior Service Company The Cleveland Electric Illuminating Company (Davis-Besse Nuclear Power Station, Unit 1); Exemption**

**I**

The Toledo Edison Company, Centorior Service Company, and The Cleveland Electric Illuminating Company (the licensees) are the holders of Facility Operating License No. NPF-

3, which authorizes operation of the Davis-Besse Nuclear Power Station (DBNPS), Unit 1 (the facility). The license provides, among other things, that the facility is subject to all the rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (the Commission) now or hereafter in effect.

The facility is a pressurized-water reactor located at the licensees' site in Ottawa County, Ohio.

**II**

In 10 CFR 73.55, "Requirements for Physical Protection of Licensed Activities in Nuclear Power Reactors Against Radiological Sabotage," paragraph (a) states, in part, that "The licensee shall establish and maintain an onsite physical protection system and security organization which will have as its objective to provide high assurance that activities involving special nuclear material are not inimical to the common defense and security and do not constitute an unreasonable risk to the public health and safety."

In 10 CFR 73.55(d), "Access Requirements," paragraph (1), it is specified that "The licensee shall control all points of personnel and vehicle access into a protected area." Also, 10 CFR 73.55(d)(5) requires that "A numbered picture badge identification system shall be used for all individuals who are authorized access to protected areas without escort." It further states that individuals not employed by the licensees (for example, contractors) may be authorized access to protected areas without escort provided that the individual "receives a picture badge upon entrance into the protected area which must be returned upon exit from the protected area \* \* \*"

By letter dated January 20, 1997, the licensees requested an exemption from certain requirements of 10 CFR 73.55. The licensees propose to implement an alternative unescorted access system that would eliminate the need to issue and retrieve picture badges at the entrance location to the protected area and would allow all individuals authorized for unescorted access, including contractors, to keep their picture badges in their possession when departing DBNPS.

**III**

Pursuant to 10 CFR 73.5, "Specific Exemptions," the Commission may, upon application of any interested person or upon its own initiative, grant such exemptions from the requirements of the regulations in this part as it determines are authorized by law and will not endanger life or property or the
