BILLING CODE 6820-SC-M

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

Reports, Form and Recordkeeping Requirements Agency Information Collection Activity Under OMB Review

AGENCY: Office of The Secretary, DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 USC Chapter 3501, *et seq.*), this notice announces that the Information Collection Requests (ICRs) abstracted below have been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICRs describe the nature of the information collections and their expected burden. The **Federal Register** notice with a 60-day comment period soliciting comments on collection of information number 2138-0040 was published on April 18, 1997 (62 FR 19169-19171) and on number 2138-0016 was published on April 23, 1997 (62 FR 19855).

DATES: Comments must be submitted on or before August 18, 1997.

FOR FURTHER INFORMATION CONTACT: Bernie Stankus, Office of Airline Information, K-25, Bureau of Transportation Statistics, 400 7th Street, SW., Room 3430, Washington, DC 20590 (202) 366-4387.

SUPPLEMENTARY INFORMATION:

Bureau of Transportation Statistics (BTS)

Title: Report of Traffic and Capacity Statistics—The T-100 System.

Type of Request: Revision of a Currently Approved Collection.

OMB Control Number: 2138-0040.

Form No.: Schedule T-100 and

Schedule T-100(f).

Affected Entities: U.S. Certificated and Foreign Air Carriers.

Abstract: This information collection is mandatory, 14 CFR 241.19-5. The DOT collects nonstop-segment and on-flight market capacity and passenger data to administer its various programs including International bilateral agreements, carrier selection for foreign routes, disbursement of airport funds, etc.

Need: Air services between the United States and most foreign countries are governed by bilateral aviation agreements. Evaluations of existing bilateral agreements and proposed changes to such agreements are based on a determination of the traffic and revenues between the United States and foreign countries for scheduled passenger and cargo flights as well as charter services. In order to determine conditions of reciprocity and the overall balance of trade, DOT conducts similar analyses for countries with which the United States does not have bilateral aviation agreements. Information used in these analyses includes traffic volume by countries and by city-pairs for passenger and cargo services and the corresponding traffic yields. Data such as passenger and cargo load factors, aircraft seating configurations, cargo capacities, and aircraft unit costs are also used.

Estimated Annual Burden Hours: 14,472 hours.

Number of Respondents: 255.

Title: Report of Extension of Credit to Political Candidates.

Type of Request: Extension of a Currently Approved Information Collection.

OMB Control Number: 2138-0016.

Form No.: 183.

Affected Entities: Certificated Air Carriers.

Abstract: BTS collects reports from air carriers on the aggregated indebtedness balance of a political candidate or party for Federal office. The reports are required when the aggregated indebtedness is over \$5,000 on the last day of the month.

Estimated Annual Burden Hours: 14 hours.

Number of Respondents: 4.

Need: The DOT uses this form as the means to fulfill its obligations under the Federal Election Campaign Act to collect data on the extension of unsecured credit to candidates for Federal Office.

ADDRESSES: Send comments to the Office of Information and Regulatory

Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, ATTN: DOT/BTS Desk Officer. Comments are invited on: Whether the proposed collections of information are necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collections; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collections of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC on July 11, 1997.

Vanester M. Williams,

Clearance Officer, United States

Department of Transportation.

Federal Aviation Administration

Advisory Circular; Manufacturing Process of Premium Quality Titanium Alloy Rotating Engine Components

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability of Proposed Advisory Circular (AC), AC No. 33.15-1, request for comments.

SUMMARY: This notice announces the availability of requests comments on a proposed AC, No. 33-15-1, Manufacturing Process of Premium Quality Titanium Alloy rotating Engine Components. The AC provides information and guidance concerning an acceptable method, but not the only method, pertaining to the materials suitability and durability requirements of § 33.15, as applicable to the manufacture of titanium alloy high energy rotating parts of aircraft engines. **DATES:** Comments must be received on or before September 15, 1997.

ADDRESSES: Send all comments on the proposed AC to the Federal Aviation Administration, Attention: Engine & Propeller Directorate, Aircraft Certification Service, Engine & Propeller Standards Staff, ANE-110, 12 New England Executive Park, Burlington, Massachusetts 01803.

FOR FURTHER INFORMATION CONTACT: Tim Mouzakis, Engine and Propeller Standards Staff, ANE-110, 12 New England Executive Park, Burlington,

MA, 01803, telephone (617) 238-7114, fax (617) 238-7199.

SUPPLEMENTARY INFORMATION:

Comments Invited

A copy of the subject AC may be obtained by contacting the person named above under **FOR FURTHER INFORMATION CONTACT**. Interested persons are invited to comment on the proposed AC, and to submit such written data, views, or arguments as they may desire. Commenters must identify the subject of the AC and submit comments in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the New England Region Engine & Propeller Directorate, Aircraft Certification Service, before issuing the final AC.

Background

The Federal Aviation Administration (FAA) established the Titanium Rotating Components Review Team (TRCRT) to review the adequacy of current efforts within the engine industry, and address the safety of titanium alloy high energy rotating components of turbine engines.

In May of 1991, the TRCRT held a public meeting and presented a report consisting of recommendations and an implementation plan. In response to the TRCRT implementation plan, in 1991, the American Industries Association (AIA) Materials and Structures Committee was formed (AIA Project P341-2) to assist the FAA in developing an advisory circular to address the processing of titanium material used in critical rotating components of aircraft engines.

The AIA Materials and Structures Committee found that existing AC's provide a means to obtain and maintain production approvals, however, these documents do not fully cover the manufacturing process used in the manufacture of premium quality titanium alloy forged rotating components for type certificated turbine establishment. This proposed AC therefore, provides supplemental guidance for the establishment of a manufacturing process, in-process material and component inspections, and finished component inspections, for manufacture of premium quality titanium alloy forged rotating components, such as disks, spacers, hubs, shafts, spools and impellers, but not blades.

This proposed advisory circular provides guidance and information for compliance pertaining to the materials suitability and durability requirements,

as applicable, to the manufacture of titanium alloy high energy rotating parts of aircraft engines.

Issued in Burlington, Massachusetts, on July 7, 1997.

James C. Jones,

Acting Manager, Engine and Propeller Directorate, Aircraft Certification Service.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Agency Information Collection Activity Under OMB Review

AGENCY: Department of Transportation, Federal Aviation Administration (DOT/FAA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) this notice announces that the information collection request described below has been forwarded to the Office of Management and Budget (OMB) for review. The FAA is requesting an emergency clearance by August 8, 1997, in accordance with 5 CFR § 1320.13. The following information describes the nature of the information collection and its expected burden.

DATES: Submit any comments to OMB and FAA by September 15, 1997.

SUPPLEMENTARY INFORMATION:

Title: Overflight Billing and Collection Customer Information Form

Need: The customer information form is needed in order to request and obtain proper billing information from carriers as well as properly identify Tail numbers as commercial or general aviation in order that carriers are charged the correct rate.

Respondents: 600.

Frequency: One time per respondent unless there is a change to the billing address.

Burden: 50 hours.

FOR FURTHER INFORMATION CONTACT: or to obtain a copy of the request for clearance submitted to OMB, you may contact Ms. Judith Street at the: Federal Aviation Administration, Corporate Information Division, ABC-100, 800 Independence Avenue, SW, Washington, DC 20591. Comments may be submitted to the agency at the address above and to: Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10202, Attention FAA Desk

Officer, 725 17th Street, NW, Washington, DC 20503.

Issued in Washington, DC on July 11, 1997.

Patricia W. Carter,

Acting, Manager, Corporate Information Division, ABC-100.

Federal Aviation Administration

Index of Administrator's Decisions and Orders in Civil Penalty Actions; Publication

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of publication.

SUMMARY: This notice constitutes the required quarterly publication of an index of the Administrator's decisions and orders in civil penalty cases. The FAA is publishing an index by order number, an index by subject matter, and case digests containing identifying information about the final decisions and orders issued by the Administrator. Publication of these indexes and digests is intended to increase the public's awareness of the Administrator's decisions and orders. Also, the publication of these indexes and digests should assist litigants and practitioners in their research and review of decisions and orders that may have precedential value in a particular civil penalty action. Publication of these indexes ensures that the agency is in compliance with statutory indexing requirements.

FOR FURTHER INFORMATION CONTACT:

James S. Dillman, Assistant Chief Counsel for Litigation (AGC-400), Federal Aviation Administration, 400 7th Street, SW., Suite PL 200-A, Washington, DC 20590; telephone (202) 366-4118.

SUPPLEMENTARY INFORMATION: The Administrative Procedure Act requires Federal agencies to maintain and make available for public inspection and copying current indexes containing identifying information regarding materials required to be made available or published. 5 U.S.C. 552(a)(2). In a notice issued on July 11, 1990, and published in the **Federal Register** (55 FR 29148; July 17, 1990), the FAA announced the public availability of several indexes and summaries that provide identifying information about the decisions and orders issued by the Administrator under the FAA's civil penalty assessment authority and the rules of practice governing hearings and
