

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Docket No. ER97-1220-001]****Cleveland Electric Illuminating Company; Notice of Filing**

July 14, 1997.

Take notice that on May 22, 1997, Cleveland Electric Illuminating Company tendered for filing an amendment in the above-referenced dockets.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before July 18, 1997. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Docket No. CP97-617-000]****Kern River Gas Transmission Company; Notice of Request Under Blanket Authorization**

July 14, 1997.

Take notice that on July 2, 1997, Kern River Gas Transmission Company (Kern

River) 295 Chipeta Way, Salt Lake City, Utah 84108, filed in the above docket, a request pursuant to 18 CFR Sections 157.205 and 157.211 of the Commission's Regulations, for authorization to construct and operate a new meter station to provide transportation deliveries for Southwest Gas Corporation (Southwest) to new markets at the California/Nevada border in Clark County, Nevada, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Specifically, Kern River proposes to construct own and operate the new Primm Meter Station at Milepost 578.2 on Kern River's pipeline in Section 6, Township 27 South, Range 59 East, Clark County, Nevada. Kern River states that the new meter station will consist of a 4-inch tap, one 2-inch turbine meter and appurtenances with a daily design capacity of approximately 6,000 Mcf per day at 650 psig.

Kern River further states that the cost to construct the Primm Meter Station is estimated to cost approximately \$230,000. Kern River indicates that pursuant to a Facilities Construction Agreement and the facilities reimbursement provisions of Kern River's tariff, Southwest will reimburse Kern River for the actual costs associated with the construction of the meter station.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no request is filed within the time allowed therefor, the proposed activity is deemed to be authorized effective on the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a

protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Lois D. Cashell,*Secretary.*

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Docket No. CP96-610-000]****Granite State Gas Transmission, Inc., Notice of Availability of the Final Environmental Impact Statement for the Proposed Granite State LNG Project**

July 14, 1997.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a Final Environmental Impact Statement (FEIS) on the construction and operation of the liquefied natural gas (LNG) peak shaving facility proposed by Granite State Gas Transmission, Inc. in the above-referenced docket.

The FEIS was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with the mitigating measures we have recommended, including receipt of necessary permits and approvals, would have limited environmental impact and would be an environmentally acceptable action. The FEIS evaluates alternatives to the proposal, including system alternatives and alternative sites for the storage facility and the permanent access road. Solely from an environmental perspective, the use of capacity available in 1999 on proposed pipelines would be an environmentally preferable alternative to providing the proposed peak shaving capacity.

Granite State is seeking approval of a specific site in Wells, Maine to store LNG that would be transported by tanker trucks from Everett, Massachusetts. The LNG would be vaporized as needed and the natural gas delivered into Granite State's existing pipeline system or the Portland Natural Gas Transmission System. The proposed action involves construction of:

- A 580,000-barrel LNG storage tank (equivalent to 2 billion cubic feet of natural gas);
- Two truck unloading stations;
- Two 67 million cubic feet per day vaporizers;
- A vapor handling system;
- A 12-inch-diameter sendout pipeline; and
- A new 1.4-mile-long permanent access road to the storage facility site from State Route 9.

In addition, Granite State proposes to upgrade and temporarily use an existing 1.1-mile-long dirt road for access into the storage facility site during the initial stages of construction.

The purpose of the proposed facilities would be to provide a 134,000 million British thermal units per day peak shaving service.

The FEIS has been placed in the public files of the FERC and is available for public inspection at:

Federal Energy Regulatory Commission,
Public Reference and Files
Maintenance Branch, 888 First Street,
N.E., Room 2A, Washington, DC
20426, (202) 208-1371

and

Town Manager's Office, Town Hall,
Wells, ME 04090, (207) 646-5113.

Copies of the FEIS have been mailed to Federal, state and local agencies; public interest groups; interested individuals; newspapers; and parties to this proceeding. A limited number of copies of the FEIS are available from the Public Reference and Files Maintenance Branch identified above.

Additional information about the proposed project is available from Paul

McKee in the Commission's Office of External Affairs at (202) 202-1888.

Lois D. Cashell,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Project No. 11393-001 Alaska]

City of Saxman; Notice of Availability of Draft Environmental Assessment

July 14, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for an original license for the major, unconstructed, Mahoney Lake Hydroelectric Project. The project would be located on Upper Mahoney Lake and Upper Mahoney Creek near Ketchikan in Southeast Alaska. The Commission staff has prepared a Draft Environmental Assessment (DEA) on the project. The DEA contains the staff's analysis of the potential environmental impacts of the project and has concluded that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Copies of the DEA are available for review in the Public Reference Room, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.

Any comments should be filed within 30 days from the date of this notice and should be addressed to Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426. For further information, contact Vince Yearick,

Environmental Coordinator, at (202) 219-3073.
