

September 16, 1996, is amended as follows:

Paragraph 6002 Class E airspace areas designated as a surface area for an airport.

* * * * *

AGL SD E2 Mitchell, SD [Revised]

Mitchell Municipal Airport, SD
(Lat. 43°46'29" N, long. 98°02'19" W)
Mitchell VOR/DME
(Lat. 43°46'37" N, long. 98°02'15" W)

Within a 4.2-mile radius of Mitchell Municipal Airport and within 2.4 miles each side of the Mitchell VOR/DME 149° radial, extending from the 4.2-mile radius zone to 7 miles southeast of the VOR/DME; and within 2.4 miles each side of the Mitchell VOR/DME 301° radial, extending from the 4.2-mile radius zone to 7 miles northwest of the VOR/DME.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 97-AGL-16]

Establishment and Modification of Class E Airspace; Ironwood, MI, Ironwood Gogebic County Airport

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This section establishes Class E Surface area airspace, and modifies Class E airspace at and above 700 feet above ground level (AGL) at Ironwood, MI. The introduction of the Automated Weather Observing System (AWOS-3) at the airport and a reevaluation of the airspace requirements for the existing instrument approach procedures necessitated these changes to the existing controlled airspace for the airport. Controlled airspace extending upward from the surface is needed to contain aircraft executing instrument approach procedures. The intended effect of this action is to provide segregation of aircraft using instrument approach procedures in instrument conditions from other aircraft operating in visual weather conditions.

DATES: Effective 0901 UTC, September 11, 1997.

FOR FURTHER INFORMATION CONTACT: Manuel A. Torres, Air Traffic Division, Operations Branch, AGL-530, Federal

Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:

History

On Friday, April 25, 1997, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish Class E surface area airspace and modify the Class E airspace at and above 700 feet AGL at Ironwood, MI (62 FR 20136). The proposal was to add controlled airspace extending upward from the surface to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace designations for airspace areas designated as a surface area for an airport are published in paragraph 6002, and Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005, of FAA Order 7400.9D dated September 4, 1996, and effective September 16, 1996, which is incorporate by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) establishes Class E surface area airspace and modifies the Class E airspace at and above 700 feet AGL at Ironwood, MI, to provide adequate Class E airspace for operators executing instrument flight procedures at Ironwood Gogebic County Airport. Controlled airspace extending upward from the surface is needed to contain aircraft executing instrument approach procedures. The area will be depicted on appropriate aeronautical charts thereby enabling pilots to circumnavigate the area or otherwise comply with IFR procedures.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44

FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9D, Airspace Designations and Reporting Points, dated September 4, 1996, and effective September 16, 1996, is amended as follows:

Paragraph 6002 The Class E airspace areas designated as a surface area for an airport.

* * * * *

AGL MI E2 Ironwood, MI [New]

Ironwood Gogebic County Airport, MI
(Lat. 46°31'39" N, long. 90°07'53" W)
Ironwood ILS
(Lat. 46°31'39" N, long. 90°09'12" W)
Ironwood VORTAC
(Lat. 46°31'56" N, long. 90°07'33" W)

Within a 4.1-mile radius of Ironwood Gogebic County Airport, and within 3.5 miles each side of the ILS Localizer east course, extending from the 4.1-mile radius to 10.2 miles east of the airport, and that airspace within 2.4 miles each side of the Ironwood VORTAC 260° radial extending from the 4.1-mile radius to 7 miles west of the VORTAC.

* * * * *

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

AGL MI E5 Ironwood, MI [Revised]

Ironwood Gogebic County Airport, MI
(Lat. 46°31'39" N, long. 90°07'53" W)
Ironwood ILS
(Lat. 46°31'39" N, long. 90°09'12" W)
Ironwood VORTAC
(Lat. 46°31'56" N, long. 90°07'33" W)

That airspace extending upward from 700 feet above the surface within a 6.6-mile

radius of the Ironwood Gogebic County Airport and within a 3.5 miles each side of the ILS Localizer Course, extending from the 6.6-mile radius to 10.2 miles east of the airport and within 3.2 miles each side of the Ironwood VORTAC 104° radial extending from the 6.6-mile radius to 11.7 miles southeast of the VORTAC, and within 2.4 miles each side of the Ironwood VORTAC 260° radial extending from the 6.6-mile radius to 7 miles west of the VORTAC and that airspace extending upward from 1,200 feet above the surface within a 21-mile radius of the Ironwood VORTAC excluding that airspace within the State of Wisconsin.

14 CFR Part 71

[Airspace Docket No. 97-AGL-14]

Establishment of Class E Airspace; Bismarck, ND, Bismarck Municipal Airport

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Bismarck, ND. This airport is served by Federal Aviation Regulations Part 121 (14 CFR Part 121) and Part 135 (14 CFR Part 135) air carrier operations during periods when the air traffic control tower is closed. Controlled airspace extending upward from the surface is needed to contain aircraft executing instrument approach procedures after the air traffic control tower is closed. The intended effect of this action is to provide segregation of aircraft using instrument approach procedures in instrument conditions from other aircraft operating in visual weather conditions.

DATES: Effective 0901 UTC, September 11, 1997.

FOR FURTHER INFORMATION CONTACT: Manuel A. Torres, Air Traffic Division, Operations Branch, AGL-530, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:

History

On Thursday, April 24, 1997, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR

part 71) to establish Class E airspace at Bismarck, ND (62 FR 19954). The proposal was to add controlled airspace extending upward from the surface to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace designations for areas extending upward from the surface of the earth are published in paragraph 6002 of FAA Order 7400.9D dated September 4, 1996, and effective September 16, 1996, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) establishes Class E airspace at Bismarck, ND, to accommodate aircraft operators during periods when the air traffic control tower is closed. Controlled airspace extending upward from the surface is needed to contain aircraft executing instrument approaches. The area will be depicted on appropriate aeronautical charts thereby enabling pilots to circumnavigate the area or otherwise comply with IFR procedures.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
