National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Shawnee County, KS in the Possession of the Kansas State Historical Society, Topeka, KS

AGENCY: National Park Service.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003 (d), of the completion of an inventory of human remains and associated funerary objects from Shawnee County, KS in the possession of the Kansas State Historical Society, Topeka, KS.

A detailed assessment of the human remains was made by Kansas State Historical Society (KSHS), Kansas State

University, and Wichita State University professional staff in consultation with representatives of the Citizen Band of Potawatomi, the Prairie Band of Potawatomi Indians, and the Kaw Indian Tribe.

In 1969, human remains representing two individuals were recovered from site 14SH322 during legally authorized excavations by KSHS for the proposed Grove Reservoir project. No known individuals were identified. The 31 associated funerary objects include ceramic sherds, glass beads, a copper bracelet, a fire steel, a projectile point, and a gunflint.

Site 14SH322 has been identified as precontact Plains Woodland and historic Native American habitation site based on material culture. Based on the associated funerary objects and indications of wood coffins, these individuals have been determined to be Native American, and the burials date from approximately 1825-1870 A.D. This site is within the boundaries of the Potawatomi reservation of 1848-1861. Consultation with representatives of the Citizen Band of Potawatomi, the Prairie Band of Potawatomi Indians, and the Kaw Indian Tribe indicates these burials are likely to be affiliated with the Potawatomi rather than the Kaw Indian Tribe.

In 1984 and 1992, human remains representing one individual were recovered from the surface of site 14SH334, a plowed field on the west edge of Rossville by KSHS archeologists. No known individual was identified. The associated funerary object is a copper or brass crucifix.

Site 14SH334 may be associated with the farmstead of the Potawatomi families Laughton and Laughton-Nadeau dating from 1848 to 1868 based on historic records pertaining to the Potawatomi reservation located in Shawnee county during 1848-1861. Several other Potawatomi family farmsteads were also present in the area, known from both historical documents and confirmed through archeological evidence. The associated funerary object, dating from the mid-nineteenth century, is a likely indicator of Catholic religious affiliation, common for many Potawatomi. Based on the associated funerary object and likely age of the burial, this individual is believed to be Native American, and the historic records for this site indicate this individual was likely Potawatomi.

In 1880, human remains representing three individuals were donated to the Kansas State Historical Society by Mr. Joel Lucas. No known individuals were identified. The three associated funerary objects include a decoratively carved

wood handle with a brass tack, one metal hoe blade, and an iron trowel.

Donor information states Mr. Lucas obtained these human remains and associated funerary objects from "Indian" graves located eight miles northwest of Topeka. This area was within the Potawatomi reservation of 1848–1861. Based on the apparent age and types of associated funerary objects, the human remains also date from this period.

Based on the above mentioned information, officials of the Kansas State Historical Society have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of six individuals of Native American ancestry. Officials of the Kansas State Historical Society have also determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 34 objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the Kansas State Historical Society have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and associated funerary objects and the Citizen Band of Potawatomi and the Prairie Band of Potawatomi Indians.

This notice has been sent to officials of the Citizen Band of Potawatomi, the Prairie Band of Potawatomi Indians, and the Kaw Indian Tribe. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Randy Thies, Archeologist, Kansas State Historical Society, 6425 SW Sixth, Topeka, KS 66606–1099; telephone: (913) 272–8681, ext. 267, before August 27, 1997. Repatriation of the human remains and associated funerary objects to the Citizen Band of Potawatomi and the Prairie Band of Potawatomi Indians may begin after that date if no additional claimants come forward.

Notice of Intent To Repatriate Cultural Items From Jackson County, KS in the Possession of the Kansas State Historical Society, Topeka, KS

AGENCY: National Park Service.

ACTION: Notice..

Notice is hereby given under the Native American Graves Protection and Repatriation Act, 43 CFR 10.10 (a)(3), of the intent to repatriate cultural items in the possession of the Kansas State Historical Society which meet the definition of "unassociated funerary objects" under Section 2 of the Act.

The fourteen cultural items include silver conchos, silver pendants, a conch shell, two bead necklaces, a cowrie shell necklace, a powder horn, two pieces of beaded cloth, two leather tobacco pouches, and a distinctively shaped piece of limestone.

In 1969, these items were donated to the Kansas State Historical Society by T.W. McDonald of Carbondale, KS. Information provided by the donor states the items were removed "from graves approximately three miles southwest of Mayetta, Kans." The cultural items most likely date from the 1850s through the 1860s. The land that is three miles southwest of Mayetta, KS is within the Prairie Band Potawatomi Reservation which has been exclusively occupied by the Potawatomi since 1848.

Officials of the Kansas State Historical Society have determined that, pursuant to 25 U.S.C. 3001(3)(B), these fourteen cultural items are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of an Native American individual. Officials of the Kansas State Historical Society have also determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these items and the Citizen Band of Potawatomi and the Prairie Band of Potawatomi Indians.

This notice has been sent to officials of the Citizen Band of Potawatomi and the Prairie Band of Potawatomi Indians. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these objects should contact Randy Thies, Archeologist, Kansas State Historical Society, 6425 SW Sixth, Topeka, KS 66606–1099; telephone (913) 272–8681 ext. 267

before August 27, 1997. Repatriation of these objects to the Citizen Band of Potawatomi and the Prairie Band of Potawatomi Indians may begin after that date if no additional claimants come forward.
