Grand River Dam Authority; Notice of Availability of Final Environmental Assessment

July 25, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47910), the Office of Hydropower Licensing (OHL) has prepared a final environmental assessment (FEA) for an application for approval of a marina expansion. Grand River Dam Authority proposes to permit Mr. Terry Frost, d/b/a Cherokee Yacht Club, to expand an existing marina on Grand Lake's Duck Creek. Cherokee Yacht Club requests permission to add two covered docks containing 53 boat slips to an existing marina consisting of 134 slips and 2 gas docks. The proposal would bring the total number of slips to 187. In the FEA, staff concludes that approval of the licensee's proposal would not constitute a major Federal action significantly affecting the quality of the human environment. The Pensacola Project is on the Grand River, in Craig, Delaware, Mayes, and Ottawa counties, Oklahoma.

The FEA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA are available for review at the Commission's Reference and Information Center, Room 2-A, 888 First Street, NE, Washington, DC 20426. Additional informational can be obtained by calling the project manager, John Estep, at (202) 219-2654.

b. Project Name and No: Catawba-Wateree Project, FERC Project No. 2232-331.

c. Date Filed: August 9, 1996, and supplemented on May 29, 1997.

d. Applicant: Duke Power Company.

e. Location: Mecklenburg, North Carolina Overlook Subdivision on Mountain Island Lake near Charlotte.

f. Filed pursuant to: Federal Power Act, 16 U.S.C. 791(a)-825(r).

g. Applicant Contact: Mr. E.M. Oakley, Duke Power Company, P.O. Box 1006 (EC12Y), Charlotte, NC 28201-1006, (704) 382-5778.

h. FERC Contact: Brian Romanek, (202) 219-3076.

i. Comment Date: September 18, 1997.

j. Description of the filing: Duke Power Company proposes to grant an easement of 5 acres of project land to Overlook Properties, Inc. to construct a private residential marina consisting of 180 boat slips. The proposed marina would provide access to the reservoir for residents of the Overlook Subdivision. The proposed marina facility would consist of an access ramp and floating slips. The slips would be anchored by using self-driving piles. In addition, an area 0.86 acre in size would be excavated to improve the water depth for boat access. About 8,800 cubic yards of material would be removed.

k. This notice also consists of the following standard paragraphs: B, C1, D2.

B. Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, 385.211, 385.214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

C1. Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title “COMMENTS”, “RECOMMENDATIONS FOR TERMS AND CONDITIONS”, “PROTEST”, OR “MOTION TO INTERVENE”, as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

D2. Agency Comments—Federal, State, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5866-4]

Agency Information Collection Activities: Submission for OMB Review; Comment Request for the Prevention of Significant Deterioration (PSD) and Nonattainment New Source Review (NSR) Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following continuing Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Information Collection Request for 40 CFR part 51 and 52 Prevention of Significant Deterioration and Nonattainment New Source Review: OMB No. 2060-0003, Exp. September 30, 1997. The ICR describes the nature of the information collection and its expected burden and cost.

DATES: Comments must be submitted on or before September 2, 1997.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No.1230.09.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are those which must submit an application for a permit to construct a new source or to modify an existing source of air pollution, permitting agencies which review the permit applications, and members of the public who are due the opportunity to comment on permitting actions.

Title: Information Collection Request for 40 CFR parts 51 and 52 Prevention of Significant Deterioration and Nonattainment New Source Review: OMB No. 2060-0003, Exp. September 30, 1997. This is a request for extension of a currently approved collection.

Abstract: Part C of the Clean Air Act (Act)—“Prevention of Significant Deterioration,” and Part D—“Plan Requirements for Nonattainment Areas,” require all States to adopt preconstruction review programs for new or modified stationary sources of air pollution. Implementing regulations for State adoption of these two New Source Review (NSR) programs into a State Implementation Plan (SIP) are promulgated at 40 CFR 51.160 through 51.166 and appendix S to part 51. Federal permitting regulations are promulgated at 40 CFR 52.21 for PSD areas that are not covered by a SIP program.

In order to receive a construction permit for a major new source or major modification, the applicant must conduct the necessary research, perform the appropriate analyses and prepare the permit application with documentation to demonstrate that their project meets all applicable statutory and regulatory NSR requirements. Specific activities and requirements are listed and described in the Supporting Statement for the ICR.

Permitting agencies, either State, local or Federal, review the permit application to affirm the proposed source or modification will comply with the Act and applicable regulations. The permitting Agency then provides for public review of the proposed project and issues the permit based on its consideration of all technical factors and public input. The EPA, more broadly, reviews a fraction of the total applications and audits the State and local programs for their effectiveness. Consequently, information prepared and submitted by the source is essential for the source to receive a permit, and for Federal, State and local environmental

agencies to adequately review the permit application and thereby properly administer and manage the NSR programs.

To facilitate adequate public participation, information that is submitted by sources as a part of their permit application, should generally be a matter of public record. See sections 165(a)(2) and 110(a)(2) (C), (D), and (F) of the Act. Notwithstanding, to the extent that the information required for the completeness of a permit is proprietary, confidential, or of a nature that it could impair the ability of the source to compete in the marketplace, that information is collected and handled according to EPA's policies set forth in title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (see 40 CFR part 2). See also section 114(c) of the Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on December 31, 1996 (61 FR 69090). The comments received are summarized in Appendix H to the Supporting Statement for the ICR, and are responded to in the appropriate sections of the Supporting Statement for the ICR. The Agency also notes that, in order to respond effectively to the comments received, the original expiration date for the existing ICR was extended from March 31, 1997 to September 30, 1997.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is broken down as follows:

Type of permit action	Major PSD	Major part D	Minor
Number of sources	320	590	56,500
Burden Hours per Response:			
Industry	839	577	40
Permitting agency	272	109	30

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and
