

FEDERAL COMMUNICATIONS COMMISSION**Public Information Collection(s)
Approved by Office of Management
and Budget**

July 30, 1997.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collection(s) pursuant to the Paperwork Reduction Act of 1995, Public Law 96-511. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Notwithstanding any other provisions of law, no person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Questions concerning the OMB control numbers and expiration dates should be directed to Jerry Cowden, Federal Communications Commission, (202) 418-0447.

Federal Communications Commission

OMB Control No.: 3060-0017.

Expiration Date: 07/31/2000.

Title: Application for a Low Power TV, TV Translator or TV Booster Station License.

Form Number: FCC 347.

Estimated Annual Burden: 1,000 hours; 2.5 hours per respondent; 400 respondents.

Description: FCC Form 347 is required to be filed when applying for a Low Power Television, TV Translator or TV Booster Station License. This form will be revised to add the new requirements regarding antenna tower registration. This unique antenna registration number identifies an antenna structure and must be used on all filings related to the antenna structure. Several questions will be added to the engineering portion of the FCC 347 to collect this information. This requirement was approved by OMB under control number 3060-0714. The data is used by FCC staff to confirm that the station has been built to terms specified in the outstanding construction permit. Data is then extracted from FCC 347 for inclusion in the subsequent license to operate the station.

OMB Control No.: 3060-0029.

Expiration Date: 07/31/2000.

Title: Application for TV Broadcast Station License.

Form Number: FCC 302-TV.

Estimated Annual Burden: 113 hours; 20 hours per respondent (1.5 hours

respondent/18.5 hours consulting engineer); 75 respondents.

Description: Licensees and permittees of TV broadcast stations are required to file FCC Form 302-TV to obtain a new or modified station license, and/or to notify the Commission of certain changes in the licensed facilities of these stations. The Commission will be adding the antenna registration information that was approved by OMB under control number 3060-0714 to this form. The data is used by FCC staff to confirm that the station has been built to terms specified in the outstanding construction permit, and to update FCC station files. Data is then extracted from FCC 302-TV for inclusion in the subsequent license to operate the station.

OMB Control No.: 3060-0188.

Expiration Date: 07/31/2000.

Title: Section 73.3550—Requests for new or modified call sign assignments.

Form Number: None.

Estimated Annual Burden: 1,050 hours; 1 hour per respondent (700 respondents 1 hour; 700 respondents 0.5 hour consultation time with attorney plus 0.5 hour attorney time beyond consultation); 1,400 respondents.

Description: Section 73.3550 requires that a licensee, permittee, assignee or transferee of a broadcast station file a letter with the Commission when requesting a new or modified call sign. When an application for transfer or assignment of license is involved and the call sign conforms to that of a commonly owned station not part of the transaction, the request must contain a written consent from the existing owner to retain the conforming call sign. In addition, where a requested call sign, without the “-FM,” “-TV” or “-LP” suffix, would conform to the call sign of any other non-commonly owned station(s) operating in a different service, the applicant must obtain and submit with the call sign request the written consent of the licensee(s) of such stations. Section 73.3550 also permits any low power television (LPTV) station to request a four-letter call sign after receiving its construction permit. All initial LPTV construction permits will continue to be issued with a five-character LPTV call sign. In addition to the letter request, an LPTV station must submit a certification under Section 74.783 which is submitted separately for OMB approval. The data is used by FCC staff to ensure that the call sign requested is not already in use by another station and that the proper “K” or “W” designation is used in accordance with the station location (east or west of the Mississippi River).

OMB Control No.: 3060-0246.

Expiration Date: 07/31/2000.

Title: Section 74.452—Equipment changes.

Form Number: None.

Estimated Annual Burden: 13 hours; 0.5 hour per respondent; 25 respondents.

Description: Section 74.452 requires that licensees of remote pickup stations notify the Commission of any equipment changes that are deemed desirable or necessary (without departing from the station authorization) upon completion of such changes. The data is used by FCC staff to assure that the changes made comply with the rules and regulations.

OMB Control No.: 3060-0254.

Expiration Date: 7/31/2000.

Title: Section 74.433—Temporary authorizations.

Form Number: None.

Estimated Annual Burden: 3 hours; 1 hour per respondent (0.25 hour respondent time in consultation with attorney plus 0.75 hour attorney time beyond consultation); 12 respondents.

Description: Section 74.433 requires that a licensee of a remote pickup station make an informal written request to the FCC when requesting temporary authorization for operations of a temporary nature that cannot be conducted in accordance with Section 74.24. The data is used by FCC staff to insure that the temporary operation of a remote pickup station will not cause interference to existing stations.

OMB Control No.: 3060-0342.

Expiration Date: 07/31/2000.

Title: Section 74.1284—Rebroadcasts.

Form Number: None.

Estimated Annual Burden: 100 hours; 1 hour per respondent; 100 respondents.

Description: Section 74.1284 requires that the licensee of an FM Translator station obtain prior consent from the primary FM broadcast station or other FM translator before rebroadcasting programs. In addition, the licensee must notify the Commission of the call letters of each station rebroadcast and must certify that written consent has been received from the licensee of that station. The data is used by FCC staff to update records and to assure compliance with FCC rules and regulations.

OMB Control No.: 3060-0483.

Expiration Date: 07/31/2000.

Title: Section 73.687—Transmission system requirements.

Form Number: None.

Estimated Annual Burden: 6 hours; 1 hour per respondent; 6 respondents.

Description: Section 73.687(e)(3) requires TV broadcast stations operating

on Channels 14 and 69 to take special precautions to avoid interference to adjacent spectrum land mobile operations. This requirement applies to all new Channel 14 and 69 TV broadcast stations and those authorized to change channel, increase effective radiated power (ERP), change directional antenna characteristics such that ERP increases in any azimuth direction or change location, involving an existing or proposed channel 14 or 69 assignment. Section 73.687(e)(4) requires these stations to submit evidence to the FCC that no interference is being caused before they will be permitted to transmit programming on the new facilities. The data is used by the FCC to ensure proper precautions have been taken to protect land mobile stations from interference. It will also both increase and improve service to the public by broadcasters and land mobile services operating in certain parts of the spectrum.

OMB Control No.: 3060-0611.

Expiration Date: 07/31/2000.

Title: Section 74.783—Station identification.

Form Number: None.

Estimated Annual Burden: 26 hours; 0.166 hour per respondent; 151 respondents.

Description: Section 74.783(b) requires television translator stations, whose station identification is made by the television station whose signals are being rebroadcast by the translator, to furnish current information with regard to the translator's call letters and location, and the name, address and telephone number of the licensee to be contacted in the event of malfunction of the translator. Section 74.783(e) requires a low power television (LPTV) station to submit a certification with its request for a four-letter call sign. This certification must include a statement that it has placed a firm equipment order, which includes a down payment for such major components as a transmitter or a transmitting antenna, that physical construction is under way at the transmitter site, or that the station has been constructed. The certification requirement will effectively enable Commission staff to award four-letter call signs to those permittees most likely to be constructed and operated.

Federal Communications Commission.

William F. Caton,

Acting Secretary.

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-1177-DR]

Idaho; Amendment to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency
Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster for the State of Idaho, (FEMA-1177-DR), dated June 13, 1997, and related determinations.

EFFECTIVE DATE: July 22, 1997.

FOR FURTHER INFORMATION CONTACT: Magda Ruiz, Response and Recovery Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3260.

SUPPLEMENTARY INFORMATION: The notice of a major disaster for the State of Idaho dated June 13, 1997, is hereby amended to include Individual Assistance in the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of June 13, 1997:

Bingham and Jefferson Counties for Individual Assistance.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance)

Lacy E. Suiter,

Executive Associate Director, Response and Recovery Directorate.
