

SUMMARY: The Occupational Safety and Health Administration announces the first meeting of the Metalworking Fluids Standards Advisory Committee (MWFSAC). The Secretary of Labor established MWFSAC to advise the Assistant Secretary for OSHA on appropriate actions to protect workers from the hazards associated with occupational exposure to metalworking fluids.

DATES: The meeting date is Tuesday, September 2, 1997, from 10:00 a.m. to about 4:30 p.m. Submit comments, requests for oral presentations, and requests for special disability accommodations by August 19, 1997.

ADDRESSES: The meeting will take place in Room C-5515 (1A and 1B) of the U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C.

Mail comments and requests for oral presentations to Dr. Peter Infante, U.S. Department of Labor, OSHA, Directorate of Health Standards Programs, Metalworking Fluids Standards Advisory Committee, Room N-3718, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT: Bonnie Friedman, Director, Office of Information and Consumer Affairs, OSHA, 202-219-8151. For special disability accommodations, contact Theresa Berry (phone: 202-219-8615 ext. 106; FAX: 202-219-5986).

SUPPLEMENTARY INFORMATION:

Background

On August 29, 1996, OSHA published a notice of intent to form a Metalworking Fluids Standards Advisory Committee (MWFSAC) and asked the public for nominations of individuals with suitable experience or expertise to serve as members (61 FR 45459). The Secretary of Labor chartered the advisory committee to address the relevant issues surrounding occupational exposure to metalworking fluids. These issues include methods of analysis and measurement, health effects, significance of risk, and technological and economic feasibility. The Secretary recently appointed fifteen persons to serve as members of MWFSAC, representing the interests of small and large employers, workers, academics, safety and health professionals, and government agencies (62 FR 39551, 7/23/97).

OSHA invites the public to attend the first MWFSAC meeting on Tuesday, September 2, 1997. Seating will be available on a first-come, first-served basis.

Meeting Agenda

The agenda for the first meeting of the advisory committee includes: introduction of members, welcome by the Acting Assistant Secretary of OSHA, discussion of committee procedures, administrative details, review of the committee charter, discussion of exposure sources and metalworking fluid operations, discussion of metalworking fluid design and uses, and discussion of appropriate source documents which MWFSAC may wish to use.

Public Participation

Interested persons may file written comments, data, views or statements for consideration by MWFSAC by submitting them to Dr. Peter Infante. Interested persons may also address the committee on items that are on the meeting agenda. A person wishing to make such an oral presentation must provide Dr. Infante with a summary of the proposed presentation, an estimate of the time desired, and a statement of the interest that the person represents. Presentation time will be allotted to speakers based on the amount of time available. In addition, public attendees may be allowed to participate in committee discussions, in the Chair's discretion and subject to time available.

Authority

This notice is issued under the authority of sections 6(b)(1) and 7(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 655, 666), the Federal Advisory Committee Act (5 U.S.C. App. 2), and 29 CFR part 1912.

Signed at Washington, D.C., this 5th day of August, 1997.

Greg Watchman,

Acting Assistant Secretary of Labor.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (97-110)]

NASA Advisory Council, Aeronautics and Space Transportation Technology Advisory Committee, Rotorcraft Subcommittee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, National Aeronautics and Space Administration announces a NASA Advisory Council,

Aeronautics and Space Transportation Technology Advisory Committee, Rotorcraft Subcommittee meeting.

DATES: August 26, 1997, 8:00 a.m. to 4:00 p.m.

ADDRESSES: National Aeronautics and Space Administration, Langley Research Center, Building 1219, Room 225, Hampton, VA 23681-0001.

FOR FURTHER INFORMATION CONTACT: Mr. Joe W. Elliott, National Aeronautics and Space Administration, Ames Research Center, Moffett Field, CA 94035-1000, 415-604-2001.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capacity of the room. Agenda topics for the meeting are as follows:

- Overview of the Rotorcraft Subcommittee Charter and Functions
- Overview of the NASA Rotorcraft Base Program
- Review of the Rotorcraft Level II Programs
- Design for Efficient and Affordable Rotorcraft
- Safe All-Weather Flight Operations for Rotorcraft
- Select Low-Noise Technologies
- National Rotorcraft Technology Center (NRTC)
- Aviation System Capacity—Shorthaul Civil Tiltrotor

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitors register.

Dated: July 31, 1997.

Leslie M. Nolan,

Advisory Committee Management Officer.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (97-107)]

Notice of Prospective Patent License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of prospective patent license.

SUMMARY: NASA hereby gives notice that Cannondale, of 9 Brookside Place, Georgetown, CT 06829-0122, has applied for a partially exclusive license to practice the inventions described and claimed in NASA Case Number GSC-13,802-1, entitled "3-D Sprag Ratcheting Tool," and U.S. Patent No. 5,482,144, entitled "Three Dimensional Roller Locking Sprag," which are both

assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. Written objections to the prospective grant of a license should be sent to Goddard Space Flight Center.

DATES: Responses to this notice must be received by October 10, 1997.

FOR FURTHER INFORMATION CONTACT:

Guy M. Miller, Patent Counsel, Goddard Space Flight Center, Mail Stop 204, Greenbelt, MD 20771, telephone (301) 286-7351.

Dated: August 4, 1997.

Edward A. Frankle,
General Counsel.

[Notice (97-109)]

Notice of Prospective Patent License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of prospective patent license.

SUMMARY: NASA hereby gives notice that Dow-United Technologies Composite Products, Inc., of Wallingford, CT 06492-1843, has applied for a partially exclusive license to practice the inventions described and claimed in NASA Case Numbers: LAR 15383-1, entitled "Method of Preparing Polymers with Low Melt Viscosity"; LAR 15534-1, entitled "Method of Preparing Polymers with Low Melt Viscosity"; and LAR 15534-2, entitled "Method of Preparing Polymers with Low Melt Viscosity"; for which United States Patent Applications were filed by the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. Written objections to the prospective grant of a license should be sent to Langley Research Center.

DATES: Responses to this notice must be received by October 10, 1997.

FOR FURTHER INFORMATION CONTACT:

George F. Helfrich, Patent Counsel, Langley Research Center, Mail Stop 212, Hampton, VA 23681-0001, telephone (757) 864-3227, fax (757) 864-9190.

Dated: August 4, 1997.

Edward A. Frankle,
General Counsel.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (97-108)]

Notice of Prospective Patent License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of prospective patent license.

SUMMARY: NASA hereby gives notice that UE Systems, Inc., Elmsford, New York, has applied for an exclusive license for the patent application entitled "Ultrasonic Imaging System," KSC-11909, which is assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. Written objections to the prospective grant of a license to UE Systems, Inc. should be sent to Beth Vrioni, John F. Kennedy Space Center, Mail Code DE-TPO, Kennedy Space Center, FL 32899.

DATES: Responses to this notice must be received by October 10, 1997.

FOR FURTHER INFORMATION CONTACT:

Beth Vrioni at (407) 867-2544.

Dated: August 4, 1997.

Edward A. Frankle,
General Counsel.

BILLING CODE 7510-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-267]

Notice of Termination

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the Termination of the Public Service Company of Colorado Fort St. Vrain Nuclear Generating Station License.

SUMMARY: The U.S. Nuclear Regulatory Commission is noticing the termination of the Public Service Company of Colorado's Fort St. Vrain (FSV) Nuclear Generating Station, Unit 1, License DPR-34, (NRC Docket File No. 50-267), located near Platteville, Colorado.

Background

The Nuclear Regulatory Commission (NRC) is terminating the operating license of the decommissioned Fort St. Vrain Nuclear Generating Station (License DPR-34) near Platteville, Colorado, and releasing the site for unrestricted use, as requested by the licensee, Public Service Company of Colorado.

The nuclear power plant, located 35 miles north of Denver, received its operating license in 1973. It was a high-temperature, gas-cooled reactor, capable of producing 330 megawatts of electricity.

NRC conducted 24 inspections at Fort St. Vrain in connection with the company's decommissioning activities. The most recent inspections (inspections conducted from February 1996 through January 1997) focused on supporting the final radiation survey review. The NRC's confirmatory radiation survey affirmed that the licensee's final survey results demonstrated that the site met the Commission's criteria for unrestricted release.

On March 10, 1997, the NRC noticed the receipt of the Fort St. Vrain Termination Plan and provided an opportunity for a hearing, but no requests were received. A public meeting was held on December 3, 1996, in the vicinity of the plant, as required under 10 CFR 50.82(a)(9)(iii), to discuss the termination of the license and no adverse comments were received.

On the basis of the decommissioning activities conducted by the licensee, the NRC review of the licensee's termination survey final report, the results of the NRC inspections, and the results of NRC confirmatory surveys, the NRC concludes that the decommissioning process is complete and the site and facility are suitable to be released for unrestricted use.

Action

Consistent with NRC's revised decommissioning regulations, specifically 10 CFR 50.82(a)(11), the NRC has released the facility and site for unrestricted use and terminated the NRC Nuclear Power Facility License DPR-34 (NRC Docket File No. 50-267).

FOR FURTHER INFORMATION CONTACT: Mr. Clayton L. Pittiglio, Project Manager, Low-Level Waste and Decommissioning Projects Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Mail Stop T-7-F27, Washington, DC 20555-0001. Telephone (301) 415-6702.

Dated at Rockville, MD this 5th day of August 1997.

For the U.S. Nuclear Regulatory Commission.

John W. N. Hickey,

Chief, Low-Level Waste and Decommissioning Projects Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.
