[Docket No. CP97-678-000]

#### Williams Natural Gas Company; Notice of Request Under Blanket Authorization

August 7, 1997.

Take notice that on July 31, 1997, Williams Natural Gas Company (WNG), P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CP97-678-000 a request pursuant to Sections 157.205, 157.212, and 157.216 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.211, 157.216) for authorization (1) to replace and relocate the Western Resources, Inc. (WRI) Arnett, Oklahoma town border setting, (2) to install a tap on the Canadian-Blackwell 26-inch pipeline to deliver gas to the Arnett town border, and (3) to abandon the delivery of gas from the Pampa 20-inch pipeline, all in Ellis County, Oklahoma, under WNG's blanket certificate issued in Docket No. CP82-479-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

WNG states that the projected volume of delivery to the new Arnett town border is not expected to exceed current deliveries. The total project cost is estimated to be \$83,849, which will be paid from available funds. WNG further states that this change is not prohibited by an existing tariff and that it has sufficient capacity to accomplish the deliveries without detriment or disadvantage to its other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a

protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-5874-2]

#### Agency Information Collection Activities: Submission for OMB Review, Comment Request; Continuous Release Reporting Regulation (CRRR) Under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget

(OMB) for review and approval: Continuous Release Reporting Regulation (CRRR) under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), OMB control number 2050-0086, EPA ICR Number 1445, expiring September 30, 1997. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before September 12, 1997.

**FOR FURTHER INFORMATION OR A COPY CALL:** Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1445.04.

**SUPPLEMENTARY INFORMATION:**

**Title:** Continuous Release Reporting Regulation (CRRR) under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), (OMB Control Number: 2050-0086; EPA ICR No. 1445) expiring 9/30/97. This ICR requests an extension of a currently approved collection.

**Abstract:** This ICR addresses the reporting and recordkeeping activities required to comply with the continuous release reporting regulation (CRRR; 40 CFR 302.8) specified in section 103(f)(2) of CERCLA. The CRRR was developed as a reporting burden reduction regulation; the CRRR provides relief from the per-occurrence notification requirements of CERCLA section 103(a) for hazardous substance releases that are "continuous," "stable in quantity and rate," and for which notification has been given "for a period sufficient to establish the continuity, quantity, and regularity" of the release. Notification of qualifying releases must be provided "annually, or at such time as there is any statistically significant increase" in the quantity of the release. The information collection requirements of the CRRR are necessary to determine if response actions are needed to control or mitigate any potential adverse effects associated with a reported hazardous substance release. The CRRR requires five types of notification activities:

- One or more initial telephone calls to the National Response Center (NRC);
- An initial written report to the EPA Region;
- A follow-up written report to the EPA Region one year after submission of the initial written report;
- Notification to the EPA Region of any changes in release information previously submitted (including either a change in composition, source, or quantity, or another type of change); and

- Immediate notification of any statistically significant increase (SSI) in the quantity or the release to the NRC.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on May 14, 1997 (62 FR 26500). No comments were received.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated as follows: A respondent is assumed to file one continuous release report per release and to experience a change in the release (e.g., a change in facility ownership or address) requiring submittal of a letter of changed information to the EPA Regions. The burden is estimated to average a total of 17.5 hours for the first year and 11.5 hours for each subsequent year for a typical release. First year burden hours are estimated as: 3 hours for providing initial telephone notification, 8 hours for preparing the initial written report, 4 hours for recordkeeping, and 2.5 hours for reporting a change in the release. Subsequent year burden hours are estimated as: 5 hours for preparing a follow-up written report and conducting annual evaluations, 4 hours for recordkeeping, and 2.5 hours for reporting a change in the release. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** 2,342.  
**Estimated Number of Respondents:** 2,342.

**Frequency of Response:** Annual plus occasional changes.

**Estimated Total Annual Hour Burden:** 181,180.

**Estimated Total Annual Cost Burden:** \$159,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1445.04 and OMB Control No. 2050-0086 in any correspondence.
